

AUTOMATIC CONTROL FOR SUSTAINABLE DEVELOPMENT

MMM2013

15th IFAC Symposium

FLOGEN
STAR OUTREACH

Control, Optimization and Automation in Mining, Mineral & Metal Processing

Mining: underground and above ground operations

Mineral Processing:

Separation, flotation, crushing, grinding, enrichment etc.

Non-ferrous metal extraction and processing

Pyrometallurgy: smelting, converting, refining, casting

Hydrometallurgy: aqueous extraction and processing

Electrochemistry: extraction, processing and refining

Iron and Steel

Iron ore preparation, flotation etc.

Iron making (Sintering, Pelletizing, Coking, Blast furnace)

Steel making (BOF, Ladle, etc.) and continuous casting

Hot/cold rolling, forming of metal and metallic materials,

Casting, forging, welding, galvanizing, annealing

Heat Treatment of Metals

Case hardening engineering, Solid State processing

Metal Recycling

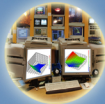

Reactor and Environmental Control

Waste treatment

Urban wastes, Water, Dusts

Power Generation

Reactors, Environmental Control

Invitation to Participate

Abstract deadline: **2013-01-18**

Website: www.flogen.org/MMM2013

25-28 August 2013, Hyatt Regency

Mission Bay Spa & Marina

San Diego, California, USA

ORGANIZERS

Florian Kongoli
Chair
FLOGEN
Canada / USA

Luis Bergh
Co-Chair
Univ. Santa Maria
Chile

Wojciech Kedzia
Co-Chair
KGHM
Poland

Jurgen Gegner
Co-Chair
Univ. of Siegen
Germany

Kazuya Asano
Co-Chair
JFE Steel
Japan

Michael Zinigrad
Co-Chair
Ariel University
Israel
