SHECHTMAN INTERNATIONAL SYMPOSIUM

This symposium will honor the great lifetime achievements of Prof. Shechtman, a metallurgist who won the 2011 Nobel Prize in Chemistry. It will cover the important pillars of sustainability:

- 1) science, technology and industrial practice
- 2) education
- 3) political and social framework

The scope includes the entire cycle of the world's most precious resources including minerals, metals and materials, their extraction, processing, recycling & development of new frontiers.

Prof. Daniel Shechtman 2011 Nobel Prize in Chemistry

Incorporating:

1st International Symposium on Sustainable Energy Production: Gas/Oil/Shale and new renewable carbon free technologies

 Current means of energy production i.e. Gas, Oil and Shale which are widely considered polluted forms of energy production. Deep and wide analysis and discussion will be undertaken on how these industries are coping with the reality of climate change and carbon emissions by decreasing carbon foot print, improving the efficiency and productivity of the current Gas, Oil and Shale energy production technologies in order to make them more sustainable.

Developing new carbon free and renewable energy technologies

29 June - 04 July 2014 Fiesta Americana Condesa Cancun, Mexico

> Abstract Submission Deadline Specified at the Website

Leading Committee:

Florian Kongoli Chair **CEO & President** Flogen Technologies Canada / USA

Manuel Ramos Co-Chair President Asarco/Gruppo Mexico / USA

Herbert Wirth Co-Chair **CEO & President** Polska Miedz SA

David Halley Co-Chair **CEO & President** PASAR **Philippines**

R. Pullenberg Co-Chair Advisor Berzelius Metall

Jiri Dostal Co-Chair **Managing Director** Kovohute Czech Republic

Michael Zinigrad Co-Chair Rector **Ariel University**
