

SHECHTMAN INTERNATIONAL SYMPOSIUM

This symposium will honor the great lifetime achievements of Prof. Shechtman, a metallurgist who won the 2011 Nobel Prize in Chemistry. It will cover the important pillars of sustainability:

- 1) science, technology and industrial practice
- 2) education
- 3) political and social framework

The scope includes the entire cycle of the world's most precious resources including minerals, metals and materials, their extraction, processing, recycling & development of new frontiers.

Prof. Daniel Shechtman
2011 Nobel Prize in Chemistry

Incorporating:

1st International Symposium on Sustainable Mining and Processing:

- Technical Aspects of Sustainability in Mining:
Energy Efficiency in Mining; Mine Automation ; Open Pit versus Underground; Tailings Storage Facilities and Methods; Phyto-reclamation and phyto-mining, etc.
- Environmental Aspects of Sustainable Mining:
Small-scale and Artisanal Mining; Dealing with Legacy Mine Sites Environmental Monitoring and Pollution Mitigation, etc.
- Socio-Political Issues in Sustainable Mining:
Regulating Mining in the Third World; Environmental Assessment and Permitting; Social-Licence-to-Mine, etc.

Organizers

John A. Meech
British Columbia U.
Canada

Chris Anderson
Massey U.
New Zealand

Detailed scope in the website

29 June - 04 July 2014
Fiesta Americana Condesa
Cancun, Mexico

Abstract Submission
Deadline Specified
