SHECHTMAN INTERNATIONAL SYMPOSIUM

This symposium will honor the great lifetime achievements of Prof. Shechtman, a metallurgist who won the 2011 Nobel Prize in Chemistry. It will cover the important pillars of sustainability:

- 1) political and social framework
- 2) science, technology and industrial practice
- 3) education

The scope includes the entire cycle of the world's most precious resources including minerals, metals and materials, their extraction, processing, recycling & development of new frontiers.

Prof. Daniel Shechtman
2011 Nobel Prize in Chemistry

Incorporating:

3rd International Symposium on Environmental, Health, Policy, Legal, Management and Social Issues Related to Metals, Materials and Mineral Processing

- Current & future plans to reduce CO2 emissions in metals & mineral processing industries
- Current environmental problems & health issues related to metals and mineral processing
- Effective management of integrated smelting complexes, mineral, metals & materials resources
- The impacts of the current situation on basic metals prices
- Intellectual Properties, contracts, confidentiality and litigation
- Technology transfer: legal and management issues
- Labor Law in mining, mineral and metals processing industries

29 June - 04 July 2014 Fiesta Americana Condesa Cancun, Mexico
