

BRICS²⁰²⁶ for Sustainability

BRICS for Sustainability 2026 is an important event that will bring together leaders from the founding BRICS nations as well as global experts to address urgent challenges related to sustainable urban development, climate action, and economic resilience. This premier event will promote international collaboration, showcasing innovative solutions, and securing funding for sustainability projects. With participation from governments, industry leaders, academic researchers, and municipal representatives, the event will provide a unique opportunity to establish strategic partnerships that drive sustainable change on a global scale.

Key Event Highlights:

- **Global Participation:** Delegations from BRICS nations, partner countries, and leading international organizations.
- **Municipal Collaboration:** Cities will present their green initiatives and seek international partnerships for sustainable local development.
- **Scientific Exchange:** Universities and research centers will showcase cutting-edge research and technologies in sustainability.
- **Tailored Networking:** Participate in exclusive business and diplomatic networking sessions designed to foster collaborations and partnerships.
