**UCTEA CHAMBER OF METALLURGICAL and MATERIALS ENGINEERS**

The Chamber of Metallurgical and Materials Engineers (CMME) is a non-profit state agency founded in 1970 and is one of twenty-four Chambers of Union of Chambers of Turkish Engineers and Architects.

The main functions of CMME are to organize required and necessary activities and conduct studies in broad fields of production, shaping, improving properties, destructive and non-destructive testing of metallic and nonmetallic materials, and also introducing the new technologies and the knowledges for the use and benefits of the members of CMME and the country.

Within this context CMME publishes a bimonthly journal entitled "METALURJİ" and a bulletin called "E-BULTEN" in which news related to metallurgy and materials science appear. CMME also organizes seminars, symposiums, panels, forums, congresses and fairs. Board of directors of CMME organized METEM (The Center of Vocational and Technical Education) to help vocational and technical improvement of the members.

The supreme governing body of CMME is the General Assembly which consists member of the Chamber is collected biannually. Board of Directors is elected at the General Assembly is responsible from the execution of the functions mentioned above. Additionally, detailed studies on certain specific subjects are conducted by "work groups" that consist of specialists from universities, research institutions and the industry and established by the Board of Directors.

**TMMOB METALURJİ ve MALZEME MÜHENDİSLERİ ODASI**

Türk Mühendis ve Mimar Odaları Birliği'ne bağlı 24 Oda'dan biri olarak ilgili yasa hükümlerine uygun şekilde 1970 yılında kurulan Metalurji Mühendisleri Odası, kamu kurumu niteliğinde bir meslek kuruluşudur.

Ülke ve Oda üyelerinin hak ve yararları gözetilerek, metal ve metal dışı malzemelerin üretimi, şekillendirilmesi, özelliklerinin geliştirilmesi, hasarlı ve hasarsız kontrolleri vb. alanlarda, ihtiyaç duyulan ve gerek görülen etkinlıkların organizasyonu ve çalışmaların yapılması, sektörümüzde yapılan çalışmaların, yeni teknolojilerin ve bilgi birikiminin çeşitli araçlarla meslektaşlarımıza ve sektör mensuplarına duyurulması, üyelerin durumlarının iyileştirilmesi, oda amaçlarının temelini oluşturmaktadır.

Bu amaçlar doğrultusunda Metalurji ve Malzeme Mühendisleri Odası iki ayda bir "METALURJİ" dergisini ve Oda faaliyetlerinin, sektörel haberlerin güncel şekilde aktarıldığı "E-BÜLTEN'i" yayılmamakta ve seminer, sempozyum, panel, forum, kongre, fuar gibi etkinlikler organize etmektedir. Oda Yönetim Kurulumuz üyelerimizin mesleki ve teknik gelişimine yardımcı olmak amacıyla METEM (Mesleki Teknik Eğitim Merkezi)'ni kurmuştur.

İki yılda bir yapılan ve Odaya kayıtlı üyelerin katılımıyla gerçekleştirilen Genel Kurul en üst organdır. Genel Kurul'da seçilen Oda Yönetim Kurulu yukarıda bahsedilen çalışmaların yürütülmesinden sorumludur. Ayrıca, Oda Yönetim Kurulunca oluşturulan ve üniversite, araştırma kuruluşları ve sanayiden uzmanların yer aldığı çalışma gruplarında belli konularda ayrıntılı çalışmaları yapılmaktadır.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

R. Vasant KUMAR

Dr. Kumar has over 20 years of research experience in metallurgy, electrochemistry, energy devices, materials chemistry synthesis and sensors. He has published over 200 papers, 12 patents, 4 Chapters in Handbooks and 1 edited book (High energy density Li batteries, Wiley-VCH 2010). He has supervised over 30 PhD students, 20 post-doctoral researchers, over 15 visiting students and hosted 8 visiting professors. Currently, Dr Kumar's research group consists of 10 PhD students, 1 MPhil (by research) student, 6 post-doctoral researchers and 2 visiting professors working on a number of research products underpinned by harnessing of electrochemical reactions in a variety of applications that range from sensors to batteries, fuel cells and photocatalytic reactions. He is the Editor of Mineral Processing & Extractive Metallurgy (London); Fellow of the Institute of Materials, Minerals & Mining (IOM3); and a Board Member of the Mineral Processing & Extractive Metallurgy Division of the IOM3. He was awarded the Institute of Materials Kroll Award in 2015 for his contributions to industrial applications of research. He has organized numerous international symposiums, workshops and conferences.

INVITED LECTURERS
DAVETLİ KONUŞMACILAR**Martin TAUBER**

Dr. Ing. Martin Tauber is the first President of the Critical Raw Material (CRM Alliance) based in Brussels. Martin is an international marketing, sales & business development executive with more than 20 years experience. Engaged in a variety of management tasks in different industries on a global level, polyolefins, non-ferrous metals and chemicals. Martin has also experience in serving as advisory board member in several companies. Since 2009 he is working as an industry consultant in the magnesium industry. He has been also representing various industries in European and international Trade & Business Associations including the International Magnesium Association (IMA). Previously, he has held various sales & marketing positions working for: Magontec, Australia; EOC Group, Belgium; Norsk Hydro Magnesium, Belgium; Borealis AB, Sweden; and PCD Polymere, Austria. He holds a PhD in social and economic science from the University of Linz, Austria.

INVITED LECTURERS
DAVETLİ KONUŞMACILAR**Mathieu MORCRETTE**

Mathieu Morcrette is the director of Laboratoire de Reactivite et Chimie des Solides in Amiens. His research is focused on electrochemical characterizations of electrode materials for lithium batteries applications. He is strongly involved in the European ALISTORE-ERI and French RS2E networks through the Benchmarking platform. He has co-author of over 100 publications and 5 patents.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

**Burcu SANER OKAN**

Asst. Prof. Dr. Burcu Saner Okan is a researcher at Sabancı University Nanotechnology Research and Application Center and co-founder of NANOGRAFEN Nano Technological Products Company. She received BSc degree in Chemistry at Middle East Technical University, Turkey in 2005, and MS degree in 2007 and PhD degree in 2011 in Materials Science and Engineering program at Sabancı University.

Dr. Saner Okan was selected as Scifinder Future Leader in 2010 by Chemical Abstract Service and only 11 PhD students around world were invited in this program. She received the best project poster award among 330 project posters in Euronanoforum 2013 conference which was Europe's biggest nanotechnology event held on June 18-20, 2013 in Dublin, Ireland. She also won the 2nd place award with the project entitled as "Graphene production by recycling process and its use as a reinforcing and weight-reducing agent in automotive plastics" in the Project competition about new technologies in automotive sector in 2015.

Dr. Saner Okan also worked in Sabancı University's start-up company of NANOTEGO A. S. as technical project manager. She has 17 articles published in international journals, 2 patents and more than 30 conference papers. She has involved in different national and international projects about graphene and carbon based nanomaterials and smart nanocomposites.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

**Iulian ANTONIAC**

Iulian Antoniac obtained his M.E., Ph.D. and Postdoc degrees in Materials Science at University Politehnica of Bucharest. Since 2002, he has been associated with the Medical Engineering program in the Faculty Materials Science and Engineering, University Politehnica of Bucharest, which is focused on biomaterials obtaining and characterization, medical image processing and the development of new implants for medical applications. Dr. Iulian Antoniac is the leader of the Biomaterials Group, head of the Biomaterials & Interface Phenomenon Laboratory, full professor at Faculty Materials Science and Engineering. He was appointed Vice Dean of Faculty Materials Science and Engineering and member of the Senate of University Politehnica of Bucharest in 2016. Dr. Antoniac has published widely, with over 200 papers published in peer-reviewed journals and conference proceedings, 7 patents, several books (like Handbook of Bioceramics and Biocomposites) and many invited lectures at conferences focused on biomaterials, bioceramics and materials science. In 2005, he received the Daniel Bunea Award from the Romanian Society for Biomaterials. Dr. Antoniac is currently Vice President and Council Member of the Romanian Society for Biomaterials (SRB), Former President and permanent Member of Executive Committee of the International Society for Ceramics in Medicine (ISCM).

Dr. Antoniac's research interests include: metallic biomaterials for orthopedic and dental applications, bioceramic coatings, biocomposites, retrieval analysis of explants, microscopy techniques for materials characterization, bone regeneration, physical and chemical characterization of nano- and micro- particles for biomedical application. Present areas of research work: bioceramics, biocomposites, biodegradable metallic biomaterials, surface modification, interaction tissue-biomaterials, biointerfaces, bone regeneration, retrieval and failure analysis of orthopedic and dental implants.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

Ali Riza TİRYAKİ

Ali Riza has graduated from Ondokuz Mayıs University, Faculty of Medicine in 1989. He was occupational physician for Çelebi Ground Handling Inc, Atatürk Airport area. He also coordinated the occupational health and safety activities of Çelebi Ground Handling Inc. at Ankara, İzmir, Dalaman and Antalya Airports. He gave "Educational Technologies and Material Design" lectures at Faculty of Health Sciences in Marmara University between 2002-2003 academic year.

Since 1997, Ali Riza continues training program design and management activities with consultancy services for occupational health and safety in ARTI Sağlık Çevre Kalite Consultancy and Training Limited Company, as a founder. Ali Riza has a key role in consultancy and training programs such as, Risk Assessment, Behaviour Based Safety, Accident Investigation and Root Cause Analysis, Corporate Crisis Management System and Crisis Management Simulation, Organization of Occupational Physician Services, Management and Assessment of Occupational Health Risk, Training of the trainer of Occupational Health and Safety Experts, etc.

He developed and performed Behavior-Based Safety Management training program in companies such; İSDEMİR, BRISA, BEKSA, TEMSA, REKSAM, FNSS, BORÇELİK, ÇELİKORD

He executed many occupational health and safety training and consultancy program in mining, metal, iron and steel companies such as, Çayeli Bakır İşletmeleri, TUPRAG, ETİBAKİR, ASYA Maden, İSDEMİR, ERDEMİR, BORÇELİK, KERİM ÇELİK, ARÇELİK, BEKAERT, REXAM.

He manages the occupational health and safety services carried out within the companies by Artı Ortak Sağlık Güvenlik Birimi Department (OSGB) for Sabancı Holding, Kordsa Global, Kaleseramik, Pirelli, Çelikord, Bekaert, Çayeli Bakır İşletmeleri, Pfizer, Coca Cola, HSBC, Novartis, Roche, REXAM, Cummins, Kimberly Clark, RBS Bank, NCR, Shell Turcas, Rohm and Haas, DOW, Vestas, Cisco, etc.

He was the charter member of Association of Occupational Physician, founded in 2008. He attends developing of training program and preparation of guidance for occupational health supervision within the association.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

Simona CAVALU

Field of interest, experience: Acrylic cements for orthopedic and dental applications, bioceramics (alumina/zirconia, alumino-silicate, hydroxyapatite), polymeric composites for controlled drug release, animal model (in vivo biocompatibility tests), in vitro tests (cells culture, cytotoxicity, proliferation), antioxidative agents.

Membership of Academic Societies: International Society for Ceramic in Medicine, Romanian Society of Biomaterials (European Society of Biomaterials), Romanian Society of Applied Biophysics (European Society of Biophysics).

Awards: "Daniel Bunea" Award of SRB for the most relevant contribution in the field of biomaterials, 2014; Excellence Award SRB 2015, Best Conference Chairperson EMN Biomaterials PHUKET 2016. Invited speaker at international conferences (10).

Research activity: More than 100 papers in SCI journals and proceedings, manager (director) of National and International Research Projects, reviewer for many International Journals. Invited professor (visiting) at Istanbul Technical University, Bezmialem Vakif University, University of Debrecen-Hungary, Meerut College India.

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

Kwang Seon SHIN

Present Position:

- Professor, Department of Materials Science and Engineering, Seoul National University, Korea
- Chairman, Korea Magnesium Research Association (2014~present)
- Member, The National Academy of Engineering of Korea (2009~present)
- Director, Magnesium Technology Innovation Center, SNU (2006~present)
- Board Member, Korea Science and Technology Policy, National Assembly of Korea
- International Partner Investigator, Australian Research Council, ARC Design in Light Metals (2011~present)
- Co-Chair, The 10th International Conference on Magnesium Alloys and Their Applications (Mg 2015)

Education:

- Ph.D. in Materials Science and Engineering, Northwestern University (1984), USA
- B.S. in Metallurgical Engineering, Seoul National University (1977), Korea

Career:

- President, Korean Institute of Metals and Materials (2013)
- Director, Research Institute of Advanced Materials, SNU (2009~2011)
- Assistant, Associate Professor (with Tenure) (1983-1991)
- Dept. of Chemical, Bio and Materials Engineering, Arizona State University, USA

Scientific Activity:

- Plenary and Invited Speakers at International Conferences, More than 100 Times
- Journal of Magnesium Alloys, Associate Editor (2014~present)
- Metals and Materials International (SCI, IF: 1.579), Founding Editor (1995~2012)
- Advanced Performance Materials, Int. Journal, Editorial Board Member (1993~2000)
- The Korean Institute of Metals and Materials
- President (2013), Vice President (2008~2009), Director, Editorial Board (2000~2002)
- Council Member (1994~present), Magnesium Committee: Chair (2007~2012)
- Mechanical Metallurgy Committee: Member (1991~), Chair (2006)
- Materials Processing Committee: Member (1996~), Chair (2002~03)
- Powder Materials Committee: Member (1996~present)
- Composite Materials Committee: Member (2001~present)
- Korea Foundry Society
- Board of Directors: Member (1995~2010)
- Korean Powder Metallurgy Institute
- Board of Directors: Member (1993~2010)
- Journal of Korean Power Metallurgy Institute, Editorial Board: Member (1993~95), Editorial Director (2004~05)
- Corrosion Science Society of Korea
- Board of Directors: Member (1998~2009), Auditor (2010~2013)
- Korean Society of Automotive Engineers
- Materials Committee: Executive Secretary (1993~2001), Chair (2002~03)
- Korea Society of Life-Cycle Assessment
- Auditor (2000~01), Board of Directors: Member (1998~99)
- The Minerals, Metals and Materials Society (TMS): Member (1979~)
- Mechanical Metallurgy Committee: Member (1979~91)
- Corrosion and Environmental Effects Committee: Member (1986~91)
- Refractory Metals Committee: Member (1989~91)
- ASM International: Member (1980~91)
- Phoenix Chapter: Student Affairs Chairman (1987~89)
- Phoenix Chapter: Educational Chairman (1986~87)

INVITED LECTURERS

DAVETLİ KONUŞMACILAR

Hatem AKBULUT

Hatem Akbulut was born in 1963 in Van (Turkey). He received his M.Sc. degree in cast irons from Istanbul Technical University. Subsequently, he completed his Ph.D in short fiber metal matrix composites from Istanbul Technical University in 1995. He also carried out his post-doctoral work at New Mexico Tech. USA (1996–1997).

He is currently Professor in the Department of Metallurgy and Materials Engineering, Sakarya, Turkey and he is manager of central laboratories at the same university.

His research interests are in the fields of electrochemical energy storage and nanocomposites. He has carried out 8 national and 3 international Project.

He has also participated as a Turkish coordinator in a EU, FP7 project on the Li-air batteries. He has guided 14 Ph.D. students and published 155 research papers in referred journals and 265 international conferences and symposium. He has 5 book chapter publications.

INVITED LECTURERS
DAVETLİ KONUŞMACILAR**Florian KONGOLI**

Dr. Florian Kongoli, [BSc (Honors), MScA (Canada), PhD (Japan)/ MTMS, MGDMB, MCIM, MSME, MAIST, MISIJ, MSigmaXi, MIFAC, MACS, MASM, MMRS, MACerS, MECS] is CEO of FLOGEN Technologies Inc. (www.flogen.com), a high-tech technology company independently incorporated in Canada and USA, specializing among others in process control, optimization and automation as well as the development of new sustainable technologies for metallurgical, chemical and environmental industries in both non-ferrous (Ni, Cu, Zn, Pb, Fe-Ni, Fe-Cr, PGMs, etc.) extraction and processing as well as in iron and steel making and processing.

He has about 25 years of industrial research and development and academic (lecturer) experience spread across many invited engagements in Asia, Australia, Europe, North America and South America. He has a rich background in both industrial projects and pure scientific ones dealing with control, optimization and automation of processes and flowsheets; physical and thermochemical modeling; physicochemical properties mattes, slags, metals, gases, oxysulfides etc. He has worked and successfully carried out many industrial projects for more than 47 well-known metallurgical and chemical companies such as Mitsubishi Materials Corporation and Sumitomo Metal Mining (Japan), Falconbridge (now Xstrata-Canada), Western Mining Corporation (now BHP Billiton-Australia), to mention just a few. In his work he has cooperated with several well-known universities around the world such as Tohoku University (Japan), Curtin University (Australia) and University of Montreal (Canada), amongst others.

Dr. Kongoli has published/edited 29 books and about 90 scientific articles in the last 5 years in peer review journals and other publications dealing with process control, optimization and automation, development of novel sustainable technologies, modeling of various properties of industrial mattes, slags, metals, effect of minor components, fluxing strategies, etc. He has delivered in 20 countries around the world about 170 plenary, keynote and invited presentations as well as articles, technical reports and research presentations.

Fairs of ANKIROS/ANNOFER/TURKCAST

Fairs of ANKIROS/ANNOFER/TURCAST

ANKIROS/ANNOFER/TURCAST Fuarları

FOCUS OF PRESTIGE IN METALLURGY INDUSTRY ANKIROS/ANNOFER/TURCAST 2016 FAIR TRILOGY

One of the most important fairs of global metallurgy industry, ANKIROS 2016 – “13th International Iron-Steel and Foundry Technology, Machinery and Products Trade Fair”, ANNOFER 2016 – “12nd International Non-Ferrous Metals Technology, Machinery and Products Trade Fair” and TURCAST 2016 – “7th Foundry Products Trade Fair” will be organized by Hannover Messe Ankiros Fuarçılık A.S., between September 29 - October 1, 2016, at TUYAP Fair & Congress Center, Buyukcekmece, Istanbul.

ANKIROS / ANNOFER / TURCAST fair trilogy constitutes an unmissable fair organization for attendees with regards to strengthen their business partnerships, make new contacts, ensure sustainability of their image within the industry, promote their products and services to large mass and meet up with qualified visitors.

As the largest organization of the metallurgical industry in Eurasian region, ANKIROS/ ANNOFER/TURCAST Fairs give its visitors the opportunity to get to know the products of the most advanced technology while offering a range of solutions to a wide range of different expectations through creative alternatives appropriate for any kind of need.

ANKIROS/ANNOFER 2016 Fairs will enable all products related to metallurgy industry such as induction and melting furnaces, refractory materials, casting, sanding and molding machines and mixers, heat treatment furnaces, control and test equipment, raw materials and consumables to appear under a single roof.

Turkish Foundry Industry, which has been growing constantly and rapidly, has reached the second largest production capacity in the EU. This has been made in parallel with the growing casting demand. Members of the industry require following the developments in foundry equipment and materials that will help improving the quality and efficiency of casting outputs.

Because of increasing of demands on iron & steel products, an impressive expansion occurred on the metallurgy industry in Turkey. Turkey became a substantial market for iron and steel producers. All kinds of machinery and equipment which are needed for metallurgical plants and rolling mills take place on the fairs. Thereby ANKIROS / ANNOFER / TURCAST 2016 Fairs are great platforms in order to show products and technologies regard to all supply chain of Eurasia for suppliers.

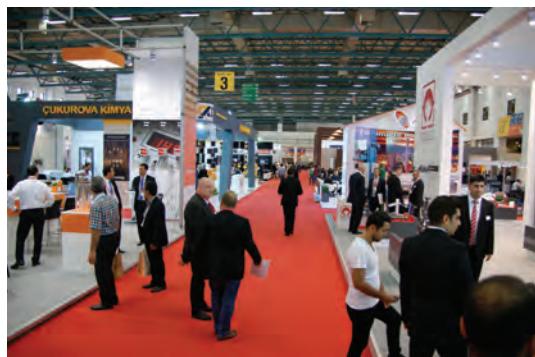

While TURCAST 2016 brings the local and foreign casting purchasers from particularly Automotive and Sub-Industry, White Goods, Cement, Construction, Defense and Aerospace, Shipping, Railway and Transportation, Petro chemistry, Energy, any kind of Heavy Industry, Agricultural Machinery, Building Machinery industries together with Turkey's leading casting producers. Casting purchasers who will visit the fair will have a chance to share information and technology in all aspects of technical and commercial issues with foundries. The fair will focus on completely foundry products and will show kind of equipments that we use in daily life.

Besides, to point out to technological developments and the problems in the metallurgy industry, and to ensure exchange of ideas related to industry trends, “18th International Metallurgy and Materials Congress” and “8th International Foundry Congress” will be organized concurrently by TÜDÖKSAD - The Turkish Foundry Association and UCTEA Chamber of Metallurgical and Materials Engineers. Detailed information on congress by TÜDÖKSAD Academy can be found at akademi.tudoksa.org.tr and detailed information on congress by UCTEA Chamber of Metallurgical and Materials Engineers can be found at www.metalurji.org.tr.

ANKIROS/ ANNOFER/ TURCAST 2016 Fairs are supported by local and international organizations like TÜDÖKSAD - The Turkish Foundry Association, UCTEA- Chamber of Metallurgical and Materials Engineers, TÇÜD - Turkish Steel Producers Association, CEMAFON - The European Foundry Equipment Suppliers Association, EUUnited - The European Engineering Industries Association, VDMA - German Engineering Federation, CECOF - The European Committee of Industrial Furnace and Heating Equipment Associations, AMAFOND - The Italian Foundry Machinery and Products Association, FESA - Foundry Equipment Supplies Association of UK, FUNDIGEX - The Castings Exporters' Association of Spain.

By keeping its development at every turn, ANKIROS/ANNOFER/TURCAST Fairs will improve through its local and international supporters. Considering digital data, this improvement is realized concretely. The result of ANKIROS / ANNOFER / TURCAST 2014 indicates that 16.015 sector employee from 77 different countries have visited on site 975 exhibitors including 369 domestic and 606 foreign from 41 countries and on 21.399 m² net stand area. 17.000 visitors from over 80 countries and 1.000 exhibitors from about 50 countries on 22.500 m² net stand area are expected in 2016 thereby 95% of stand area are sold as of June.

There is an innovation this year; Exhibitors of ANKIROS / ANNOFER / TURCAST will be able to create visitors records through QR codes on their admission passes. Thereby this will provide exhibitors to access visitors information during the fair and there will be no need for business cards for visitors any more.

All companies of the metal industry are invited to visit ANKIROS / ANNOFER / TURCAST 2016 fairs that are being expected to reach record values with regard to participation and visit.

ANKIROS / ANNOFER / TURCAST Fairs which will be organized in Istanbul, Turkey's metropolitan city having a unique historic fabric and spectacular beauty, offer several opportunities for visitors in terms of place and location it is held in. Out of fair-visiting hours, some places can be visited where both local and foreign visitors are allowed to spend time and recognize Turkey well.

Hannover-Messe Ankiros Fuarçılık A.S. would be glad to see all visitors related to metallurgy industry at ANKIROS / ANNOFER / TURCAST 2016 Fairs...

Fracturebehavior of a Titanium Alloy for Hipreplacement Case Study

Lulian Antoniac

University Politehnica of Bucharest
Romania
(Invited Lecturer)

15.50 - 16.10

Effect of Laser Beam Welded AISI 2205 Duplex Stainless Steel on the Viability of Fibroblast Cells

Ceyhun Köse¹, Ramazan Kaçar², Aslı Pınar Zorba³, Melahat Bağırova³, Emrah Şefik Abamor³, Adil Allahverdiyev³

¹Gaziosmanpaşa University, ²Karabük University,
³Yıldız Technical University
Türkiye

16.10 - 16.30

Nanocomposite Materials Containing Metal Nanoparticles for Tissue Engineering Applications

Ayşen Aktürk, Melek Erol Taygun, Gültekin Göller, Sadriye Küçükbayrak

İstanbul Technical University
Türkiye

29 September Thursday / 29 Eylül 2016

Hall Marmara / Salon Marmara

BM'S

Session 2

Session Chairman / Oturum Başkanı: CANER DURUCAN

16.50 - 17.30

Acrylic Bone Cements: New Insight and Future Perspective**Simona Cavalu**University of Oradea
Romania
(Invited Lecturer)

17.30 - 17.50

Production and Characterization of Yttria Stabilized Zirconia Ceramic Blocks for Dental Applications**Melis Kaplan¹, Abdullah Öztürk¹, Jongee Park²**¹Middle East Technical University, ²Atilim University
Türkiye

17.50 - 18.10

Effect of Time on the Direct Formation of Hydroxyapatite Coatings on Commercially Pure Zirconium by Plasma Electrolytic Oxidation**Salim Levent Aktuğ¹, Metin Usta^{1,2}**Gebze Technical University, TÜBİTAK Marmara Research Center
Türkiye**EOSS'S****Environment, Occupational Safety and Sustainability Symposium****Çevre, İş Güvenliği ve
Sürdürülebilirlik Sempozyumu**

29 September Thursday / 29 Eylül 2016

Hall Karadeniz / Salon Karadeniz

EOSS'S**Session 1**Session Chairman / Oturum Başkanı: **SERVET TİMUR**

10.00 - 10.20

Health and Safety Issues Associated with Nanotechnology**Ayşenur Güл**İşık University
Türkiye

10.20 - 10.40

Recovery of Metals From Solutions Obtained by Synthetic Diamond Cutting Tool Recycling**Meltem Ergun, M. Şeref Sönmez**İstanbul Technical University
Türkiye

10.40 - 11.00

Production of Polyethylene – Aluminum Composites from Waste Tetra Pak Packages**Büşra Akoğlu¹, Kübra Azgi¹, Armağan Özpektürk¹, Sevil İncir², Murat Çopur², Ahmet Turan¹**¹Yalova University, ²Alarko Carrier San. ve Tic. A.Ş.
Türkiye

11.00 - 11.20

Selective Sulphide Precipitation of Copper, Nickel and Zinc from Industrial Wastewater**Aysel Şen, Levent Kartal, Gülden Kartal Şireli, Servet Timur**İstanbul Technical University
Türkiye**29 September Thursday / 29 Eylül 2016**

Hall Karadeniz / Salon Karadeniz

EOSS'S**Session 2**Session Chairman / Oturum Başkanı: **M. ŞEREF SÖNMEZ**

11.40 - 12.20

Energy Saving and Modern Process Control and Automation**Florian Kongoli**Flogen Technologies Inc.
Canada
(Invited Lecturer)

12.20 - 12.40

A New Approach on the Recycling of EAF Slags: Sponge Iron Production Via Direct Reduction**İdil Bilen¹, Ahmet Turan², Paer Jönsson¹, Onuralp Yücel³**¹KTH Royal Institute of Technology, ²Yalova University,
³İstanbul Technical University
Türkiye

12.40 - 13.00

Konverter Altındaki Sıvı Çelik Potaları İçin Otomatik Külçe Alüminyum Besleme Sistemi Tasarımı*Automatic Ingot Aluminium Feeding System Design for Liquid Steel Ladle Under Converter***Mesut Tutal¹, Ahmet Kayrak², Yılmaz Erbil³, Serdar Güzel³**¹Erdemir Mühendislik Yönetim ve Danışmanlık Hizmetleri A.Ş., ²Erdemir A.Ş., ³Secant Teknoloji Geliştirme A.Ş.
Türkiye

Session Chairman / Oturum Başkanı: ALİ RIZA TİRYAKI

14.00 - 15.30

İnsan, Kültür, İletişim ve Yönetim Boyutlarıyla Üretim İşletmelerinde Sürdürülebilir, Sağlıklı ve Güvenli Çalışma**Sustainable, Healthy and Safe Work in Production Operations:
Opinions from Humanistic, Cultural and Communication
Aspects****PANELISTS / PANELİSTLER****Management and its Impact on Health and Safety****Çiğdem Vatansever**Namık Kemal University
Türkiye**Dynamics of Safe and Unsafe Behavior****Nevin Kılıç**Fatih Sultan Mehmet Vakıf University
Türkiye**Culture of Healthy and Safe Work****Elif Sungur**Maltepe University
Türkiye**The Role of Communication in Health and Safety at Work****Hakan Aytėkin**Maltepe University
Türkiye**MC'S****Materials Characterization Symposium****Malzeme Karakterizasyonu Sempozyumu**

30 September Friday / 30 Eylül 2016

Hall Büyükkada / Salon Büyükkada

MC'S**Session 1**Session Chairman / Oturum Başkanı: **FERHAT KARA**

10.00 - 10.20

The Evaluation and Requirement of the Team Work and Problem-Based Design Projects in Metallurgical and Materials Engineering Education**Ayşe Kılıç, İsmail Yılmaz Taptık**İstanbul Technical University
Türkiye

10.20 - 10.40

Evaluation of the Microstructure of AISI D2 Steel by Magnetic Barkhausen Noise Technique**Ebru Arslan¹, Ömer Faruk Murathan², Kemal Davut¹, Volkan Kılıçlı²**¹Atilim University, ²Gazi University
Türkiye

10.40 - 11.00

Sensitivity Analysis of Distortion of Carburized Steel Shafts Using Computer Simulations**Büşra Yazır Terzi, G. Elif Evcil, Seçil Yıldız, Kemal Davut, Caner Şimşir**Atilim University
Türkiye

30 September Friday / 30 Eylül 2016

Hall Büyükkada / Salon Büyükkada

MC'S**Session 2**Session Chairman / Oturum Başkanı: **MEHMET ALİ GÜLGÜN**

11.20 - 11.40

Investigation the Reliability of Gleeb Phase Transition Data by the Means of EBSD Method**Dilara Çimen, Gözde Karaçalı, Ekrem Akça, Recep Vatansever**Ereğli Iron and Steel Works Company
Türkiye

11.40 - 12.00

Influence of Atmospheric Plasma Surface Activation Treatments on Polypropylene (PP) Surface Properties**Sevim Gökcə Esen¹, Ekrem Altuncu¹, Fatih Üstel¹, Gülsah Karagöz²**¹Sakarya University, ²Assan Hanil Automotive Industry and Trade Inc.
Türkiye

12.00 - 12.20

Microstructural Refinement of Ti-6Al-4V Alloy Fabricated by Additive Manufacturing Using Thermochemical Processes**Güney Mert Bilgin¹, Ziya Esen², Şeniz Reyhan Kuşhan Akın², Arcan F. Dericioğlu¹**¹Middle East Technical University, ²Çankaya University
Türkiye

12.20 - 12.40

Effect of Ta Addition on Structural and Room Temperature Mechanical Properties of B2-Type Ordered Feal Intermetallics**Mehmet Yıldırım¹, M. Vedat Akdeniz², Amdulla O. Mekhrabov²**¹Selçuk University, ²Middle East Technical University
Türkiye

30 September Friday / 30 Eylül 2016

Hall Büyükada / Salon Büyükada

MC'S

Session 3

Session Chairman / Oturum Başkanı: GÜLTEKİN GÖLLER

13.30 - 13.50

Mechanical Properties of Plasma Electrolytic Carburized Pure Iron**Fatih Çavuşlu^{1,2}, Metin Usta^{1,3}**¹Gebze Technical University, ²Adana Science and Technology University,
³TÜBİTAK Marmara Research Center
Türkiye

13.50 - 14.10

Determination of Crystallite Size, Lattice Strain and Amorphization of Mechanically Alloyed W-VC-C Powder Composites**Sultan Sönmez, Hadi Jahangiri, M. Lütfi Öveçoğlu**İstanbul Technical University
Türkiye

14.10 - 14.30

Surface Characterization Study on EPDM Rubber Seal Profiles**Ekrem Altuncu¹, Uğursoy Olgun¹, Ali Erkin Kutlu², Yusuf Güner², Müfit Çağlayan²**¹Sakarya University, ²Standard Profil Automotiv
Türkiye

14.30 - 14.50

Microstructural and Fractographic Investigation of Brazed Martensitic Stainless Steel Joints Under Cyclic Loading**Tanya A. Başer**TOFAŞ Türk Otomobil Fabrikası A.Ş.
Türkiye

30 September Friday / 30 Eylül 2016

Hall Büyükada / Salon Büyükada

MC'S

Session 4

Session Chairman / Oturum Başkanı: SERVET TURAN

15.10 - 15.30

Sm Microalloyed Cu-Zr-Al Bulk Metallic Glasses**Fatih Sikan¹, İlkay Kalay², Yunus Eren Kalay¹**¹Middle East Technical University, ²Çankaya University
Türkiye

15.30 - 15.50

Fully Automated Analysis of Non-Metallic Inclusions in Steel According to EN 10247 and Focus Effect**Hüseyin Kurtuldu¹, Göksel Durkaya², Hakan Kaplan², Tuncay Çelebi³, Figen Dikilitaş³, Osman Yazaroğlu³**¹Başkent University, ²Atilim University,
³Kardemir Iron Steel Industry Trade
Türkiye

15.50 - 16.10

Investigation of Thermal Behaviour of Hisarcık and Espey Colemanites**Dilek Şenol Arslan¹, Orhan Özdemir¹, M. Sabri Çelik²**¹İstanbul University, ²İstanbul Technical University
Türkiye

16.10 - 16.30

Synthesis of Copper Doped Zinc Oxide (ZnO:Cu) Nano-Centipedesvia Vapor Deposition Method**Özlem Altıntaş Yıldırım^{1,2}, Yuzi Liu², Amanda K. Petford Long^{2,3}**¹Selçuk University, ²Argonne National Laboratory,
³Northwestern University
Türkiye, USA

30 September Friday / 30 Eylül 2016

Hall Büyükkada / Salon Büyükkada

MC'S

Session 5

Session Chairman / Oturum Başkanı: Y. EREN KALAY

16.50 - 17.10

Measurement of Residual Stresses in the Carburized Steels by Non-Destructive Techniques**Hüseyin Hızlı, Tuğçe Kaleli, C. Hakan Gür**Middle East Technical University
Türkiye

17.10 - 17.30

Comparison of the Mechanical Response of Porous Ti-6Al-4V Alloys Produced by Different Compaction Techniques**G. İpek Selimoğlu², E. Erkan Aşık¹, Fatma Şen²,
Gizem Yaymacı²**¹University of Twente, ²Anadolu University
Netherlands, Türkiye

17.30 - 17.50

Microstructural Characterization of Spark Plasma Sintered Graphene Containing SiAlON**Sinem Başkut, Alper Çınar, Servet Turan**Anadolu University
Türkiye

17.50 - 18.10

New Generation Ultra-High Strength Steels For Cold Forming**Barış Çetin¹, Eren Billur^{2,3}, Cansu Yazganarakan¹**¹FNNS Savunma Sistemleri A.Ş.,
²Billur Metal Form Mühendislik ve Danışmanlık Ltd. Şti.,
³Atılım University
Türkiye

30 September Friday / 30 Eylül 2016

Hall Karadeniz / Salon Karadeniz

MC'S

Session 6

Session Chairman / Oturum Başkanı: KÜRŞAT KAZMANLI

11.20 - 11.40

Characterisation of Tribological Properties of Lubricating Oil With Silicon Nitride Nanoparticle Additives**Abdullah Sert¹, Umut Savacı², Osman Nuri Çelik¹,
Servet Turan²**¹Eskişehir Osmangazi University, ²Anadolu University
Türkiye

11.40 - 12.00

A Study of Quantitative Metallography and X-ray Diffraction Methods for Quantifying Carbide Amount in AISI D2 Tool Steel**Abdullah Sert¹, Selim Gürgen², Osman Nuri Çelik¹**¹Eskişehir Osmangazi University, ²Anadolu University
Türkiye

12.00 - 12.20

Combined Effect of Heat Treatment and Friction Stir Processing on the Microstructure and Mechanical Properties of Low Carbon Steels Used in Shipbuilding**Dursun Murat Sekban¹, Semih Mahmut Aktarer²,
Gençaga Pürçek¹**¹Karadeniz Technical University, ²Recep Tayyip Erdoğan University
Türkiye

12.20 - 12.40

Mapping the Spatial Distribution of Nodular Properties in Spheroidal Graphite Cast Iron**Göksel Durkaya¹, Hüseyin Kurtuldu², Hakan Kaplan¹,
Barış Çetin³**¹Atılım University, ²Başkent University, ³FNSS Savunma Sistemleri A.Ş.
Türkiye

NFM'S

Non-Ferrous Metallurgy Symposium

Demir Dışı Metaller Metalurjisi Sempozyumu

NFM'S

Session 1

Session Chairman / Oturum Başkanı: MARTIN TAUBER

10.00 - 10.20

A Chronoamperometric Study for Nucleation and Growth Mechanism of Au-Ag Alloy Electrodeposition from Pyrophosphate Electrolyte

Kübra Akben, Servet Timur
İstanbul Technical University
Türkiye

10.20 - 10.40

Antimony Production From Domestic Stibnite Ores Via Niederschlag Process

Sedef Pınar Başağ¹, Ahmet Turan², Onuralp Yücel¹
¹Istanbul Technical University, ²Yalova University
Türkiye

10.40 - 11.00

Production of Pure Platinum and Palladium from Dore Metals via Hydrometallurgical Methods

Yasemin Kılıç, Güldem Kartal Şireli, Servet Timur
İstanbul Technical University
Türkiye

30 September Friday / 30 Eylül 2016

Hall Marmara / Salon Marmara

NFM'S**Session 2**Session Chairman / Oturum Başkanı: **GÖKHAN ORHAN**

11.20 - 12.00

Critical Raw Materials**Martin Tauber**

CRM Alliance

Belgium

(Invited Lecturer)

12.00 - 12.20

Production of Technical-Grade MoO₃ from MoS₂ Concentrate**Kağan Benzeşik, M. Şeref Sönmez, Onuralp Yücel**

İstanbul Technical University

Türkiye

12.20 - 12.40

Investigation of the Larger Scale Tungsten Production by the Electrochemical Reduction Technique**Furkan Özdemir¹, Metehan Erdoğan², Mustafa Elmadağlı³, İshak Karakaya¹**¹Middle East Technical University, ²Yıldırım Beyazıt University, ³Roketsan Inc.

Türkiye

30 September Friday / 30 Eylül 2016

Hall Marmara / Salon Marmara

NFM'S**Session 3**Session Chairman / Oturum Başkanı: **ALİ ARSLAN KAYA**

13.30 - 14.10

Development of High Performance Magnesium Alloys via Twin Roll Strip Casting Process**Kwang Seon Shin**

Seoul National University

Republic of Korea

(Invited Lecturer)

14.10 - 14.30

Production of Magnesium Metal From Calcined Dolomite Via Pidgeon Process**Mehmet Buğdaycı^{1,2}, Ahmet Turan², Murat Alkan³, Onuralp Yücel¹**¹Istanbul Technical University, ²Yalova University, ³Dokuz Eylül University Türkiye

14.30 - 14.50

Designing Aircraft Passenger Seat Components Using Magnesium Alloys**Erman Arıkın, Ç. Yalçın, A. Ataman, Y. Türe, D. Turan, A. Araslan Kaya**

Assan Hanil, Anadolu University, Şeyh Edabali University, Muğla Sıtkı Koçman University

Türkiye

NFM'S**Session 4**

Session Chairman / Oturum Başkanı: KWANG SEON SHIN

15.10 - 15.30

Deformation Behavior of Some Ternary Magnesium Alloy Systems**G. Palumbo^{1,2}, D. Sorgento^{2,3}, A. Cocozza¹, D. Eren⁴,
D. Turan⁴, A. Arslan Kaya⁵**¹Polytechnico di Bari, ²CNR-IFN UOS Bari,
³Università degli Studi della Basilicata, ⁴Anadolu University,
⁵Muğla Sıtkı Koçman University
Türkiye, Italy

15.30 - 15.50

Changes in Elasticity Modulus and Damping in Some Novel Magnesium Alloy Systems at Room and High Temperatures**Çisem Çelik¹, S. Güneş¹, N. Sarıkaya¹, P. Karadayı¹, Y. Türe²,
A. Ataman³, E. Arkin⁴, Ç. Yalçın⁴, G. Palumbo^{5,6},****D. Sorgento^{6,7}, D. Turan⁸, A. Arslan Kaya¹**
¹Muğla Sıtkı Koçman University, ²Şeyh Edabali University,
³Anadolu University, ⁴Assan Hanil Co., ⁵Polytechnico di Bari,
⁶CNR-IFN UOS Bari, ⁷Università degli Studi della Basilicata
Türkiye, Italy

15.50 - 16.10

Effect of SiC Grain Refining on Wear Resistance of Mg-Al Alloys**Erdem Karakulak¹, Norbert Hort², Yusuf Burak Küçük³**¹Kocaeli Üniversitesi, ²Helmholtz-Zentrum Geesthacht, ³Kocaeli Üniversitesi
Türkiye, Germany

16.10 - 16.30

Aluminum Sheet Production: General Principles of Finishing Lines**Sadık Kaan İpek, Faruk Günaçan, Ali Ulus**Teknik Alüminyum A.Ş.
Türkiye**NFM'S****Session 5**

Session Chairman / Oturum Başkanı: VEDAT SANCAKDAR

16.50 - 17.10

Optimization of Strontium Addition for the Modification of AlSi7Mg0.3 Alloy**Selin Derin¹, Uğur Aybarç², Yücel Birol¹**¹Dokuz Eylül University, ²CMS Co. A.Ş.
Türkiye

17.10 - 17.30

Numerical Simulation of Residual Stresses in Al 5083 Slab Based on Finite Volume Method**Şerzat Safaltın, Sebahattin Gürmen**İstanbul Technical University
Türkiye

17.30 - 17.50

Enhancement of Mechanical Properties for AA6082 Alloy by Using Equal Channel Angular Pressing and Aging Processes**A.Yiğit Erdoğan, Hasan Kaya, Ş.Hakan Atapek**Kocaeli University
Türkiye

17.50 - 18.10

Optimization of the Diffusion Bonding Parameters for 6063 Aluminum Alloy**Sila Ece Atabay, Arcan F. Dericioğlu**Middle East Technical University
Türkiye

10.00 - 10.20

Microstructure and Properties of Age Hardenable Cu-2.55Ni-0.55Si Alloy**Ş. Hakan Atapek¹, Gülsah Aktaş¹, Şeyda Polat¹, Apostolos N. Chamos², Spiros G. Pantelakis²**¹Kocaeli University, ²University of Patras
Türkiye, Greece

10.20 - 10.40

The Effects of Mo Addition on Microstructural Characteristics of W-Ni-Co Heavy Alloys**Onur Dinçer, M.Kaan Pehlivanoğlu**
TÜBİTAK-SAGE
Türkiye

10.40 - 11.00

Liquid Phase Sintering Behavior of Tungsten Powders Produced by the Electrochemical Reduction**Mahmut Erol¹, Metehan Erdoğan¹, İshak Karakaya²**
¹Yıldırım Beyazıt University, ²Middle East Technical University
Türkiye**EM'S****Energy Materials Symposium****Enerji Malzemeleri Sempozyumu**

30 September Friday / 30 Eylül 2016

Hall Karadeniz / Salon Karadeniz

EM'S

Session 1

Session Chairman / Oturum Başkanı: HATEM AKBULUT

13.30 - 14.10

Lithium-Ion Batteries and Beyond**Mathieu Morcrette**

Reactive et Chimie des Solides

France

(Invited Lecturer)

14.10 - 14.30

The Use of Polysulfide Barriers to Improve the Performance of Room-Temperature Sodium-Sulfur (Na-S) Batteries**Elif Ceylan Cengiz, Rezan Demir-Çakan**

Gebze Technical University

Türkiye

14.30 - 14.50

Improvement of Cycling Behavior of Aqueous Electrolyte LiFePO₄ Cathode Material**Serkan Sevinç, Burak Tekin, Rezan Demir-Çakan**

Gebze Technical University

Türkiye

30 September Friday / 30 Eylül 2016

Hall Karadeniz / Salon Karadeniz

EM'S

Session 2

Session Chairman / Oturum Başkanı: DAVUT UZUN

15.10 - 15.50

Geleceğin Li-İyon Pil Negatif Elektrotları İçin Yeni Malzeme ve Elektrot Mimari Yapıları*New Materials for the Future Li-ion Battery Negative Electrodes and the Electrodes Architectural Structures***Hatem Akbulut**

Sakarya University

Türkiye

(Invited Lecturer)

15.50 - 16.10

Advanced Batteries for Micro-Hybrid Applications**Hatice Doğanay, Muhsin Mazman, Cem Açıksarı, Doğancan Sarıkaya, Öner Toy, Ezgi Bilgiç, Serdar Güll, Mustafa Kılıçaslan, Ali Alim**

Mutlu Akü ve Malzeme A.Ş.

Türkiye

16.10 - 16.30

LiMn_{2-x}M_xO₄ (M = Li, Co) Cathode Production Via Sol-Gel Method and Characterization for Li-Ion Batteries**B.Anıl Özkaya, Özgül Keleş**

İstanbul Technical University

Türkiye

EM'S

Session 3

Session Chairman / Oturum Başkanı: TAYFUR ÖZTÜRK

16.50 - 17.10

The Effect of Ball Milling Time on Discharge Behaviour of Mg₂Ni-Type Hydrogen Storage Alloy Electrodes**Gökçe Hapçı Ağaoğlu, Gökhan Orhan**İstanbul University
Türkiye

17.10 - 17.30

The Surface and Bulk Kinetics of Oxygen Transport in Solid Oxide Fuel Cell Cathodes**Doğancan Sarı, Ziya Çağrı Torunoğlu, Fatih Pişkin,
Yener Kuru, Yunus Emre Kalay, Tayfur Öztürk**Middle East Technical University
Türkiye

17.30 - 17.50

Development of Rare Earth-Free Negative Electrode Materials for Ni/MH Batteries**Ezgi Onur Şahin, Cavit Eyözge, Tayfur Öztürk**Middle East Technical University
Türkiye

17.50 - 18.10

Design and Development of Ni-Based Heusler Alloys for Magnetic Refrigeration**Sedanur Toraman, Amdulla O. Mekhrabov, M. Vedat Akdeniz**Middle East Technical University
Türkiye**MDPM'S****Materials Degradation and Protection Methods Symposium****Malzemelerin Bozunumu ve Korunma Yöntemleri Sempozyumu**

01 October Saturday / 01 Ekim 2016

Hall Büyükkada / Salon Büyükkada

MDPM'S**Session 1**

Session Chairman / Oturum Başkanı: NURHAN CANSEVER

13.30 - 13.50

Degradation of Thermal Barrier Coatings with Molten CaO-MgO-Al₂O₃-SiO₂ (CMAS) Deposition and Hot Corrosion**Muhammet Karabaş¹, Emre Bal², Ayşe Kılıç³, İ. Yılmaz Taptık³**¹Hakkari University, ²Akdeniz University, ³İstanbul Technical University
Türkiye

13.50 - 14.10

Determination of Hot Corrosion and CMAS Infiltration Behavior of Thermal Barrier Coatings using a CO₂ Laser Beam**Gültekin Göller¹, Mustafa Güven Gök²**¹İstanbul Technical University, ²Hakkari University
Türkiye

14.10 - 14.30

Comparison of Microbiologically Induced Corrosion Behavior of 316L Stainless Steel and Galvanized Steel as Cooling Tower Materials**Tuba Ünsal¹, Simge Arkan¹, Esra İlhan-Sungur¹, Nurhan Cansever²**¹İstanbul University, ²Yıldız Technical University
Türkiye

14.30 - 14.50

Corrosion Behavior and Cathodic Protection Modeling of Selected Steel Component in Seawater**Rauf Aksu¹, Metehan Erdoğan², Halim Meço³, İshak Karakaya¹**¹Middle East Technical University, ²Yıldırım Beyazıt University,
³FNSS Defence Systems
Türkiye**01 October Saturday / 01 Ekim 2016**

Hall Büyükkada / Salon Büyükkada

MDPM'S**Session 2**

Session Chairman / Oturum Başkanı: MUSTAFA ÜRGÜN

15.10 - 15.30

Corrosion Properties of Ni-P-W / Al₂O₃ Electroless Composite Coatings on AZ91 Magnesium Alloy**Selim Taşçı, Reşat Can Özden, Mustafa Anık**Eskişehir Osmangazi University
Türkiye

15.30 - 15.50

Corrosion Behaviors of Different Aluminum Alloys and Cathodic Protection Application to the Amphibious Military Vehicles**Refik Onur Uğuz¹, Halim Meço², Metehan Erdoğan³, İshak Karakaya¹**¹Middle East Technical University, ²FNSS Defense Systems Inc.,
³Yıldırım Beyazıt University
Türkiye

15.50 - 16.10

Characterization of Corrosion of A380**Eda Ergün Songül, Derya Dışpınar, Gökhan Orhan**İstanbul University
Türkiye

16.10 - 16.30

Galvanik Korozyonu Önlemek İçin Bağlantı Elemani Montajında Farklı Metodların Kullanımı*Effect of Different Fastener Installation Methods to Prevent Galvanic Corrosion***Ali Erdem Eken, Cemil Yılmaz, Evren Tan**Aselsan A.Ş.
Türkiye

ISM'S Session 1

Session Chairman / Oturum Başkanı: NURİ SOLAK

10.00 - 10.20

Çemtaş Çelik Fabrikasında Hidrojen Kontrolü

Hydrogen Control at Çemtaş Steel Plant

**Hazal Suna¹, İsmail İrfan Ayhan¹, Mehmet Akpınar¹,
Naci Sevinç²**

¹Çemtaş Çelik Makine Sanayi, ²Atılım University
Türkiye

10.20 - 10.40

Çok Düşük Karbonlu Çeliklerde Pota Nozulu Tıkanma Probleminin Önlenmesine Yönelik İncelemeler ve Uygulamalar

Investigation of Ladle Nozzle Clogging Problem in ULC Steel Grades at Continuous Casting Process

**Zafer Çetin, Emre Alan, Cenk Öztürk, Yılmaz Kaçar,
Oğuz Gündüz**

Ereğli Demir ve Çelik Fabrikaları T.A.Ş.
Türkiye

10.40 - 11.00

Inclusion Shape Control with Calcium and Zirconium and Their Effects on Mechanical Properties Cast Steel

Ersel Aydın, C. Fahir Arısoy, M. Kelami Şeşen

İstanbul Technical University
Türkiye

11.00 - 11.20

Effect of CAL&CGL Heat Cycle Characteristics on Microstructure and Mechanical Properties of DP Steels

**Mehmet Bulut Özyigit, Ümrان Başkaya, Yasemin Kılıç,
Oğuz Gündüz**

Ereğli Iron and Steel Works Company
Türkiye

01 October Saturday / 01 Ekim 2016

Hall Marmara / Salon Marmara

ISM'S

Session 2

Session Chairman / Oturum Başkanı: OĞUZ GÜNDÜZ

11.40 - 12.20

Modified Ironmaking Process for Eliminating Carbon Dioxide Emission**R. Vasant Kumar**University of Cambridge
United Kingdom
(Invited Lecturer)

12.20 - 12.40

Dünyada ve Türkiye'de Demir Çelik Üretimi*Steel Production in the World and in Turkey***Yusuf Ziya Kayır**KOSGEB Ankara Sincan Müdürlüğü
Türkiye

12.40 - 13.00

3.Yüksek Fırın Hazne Tamiratı*Blast Furnace #3 Hearth Repair***Gökhan Baki, Ahmet Serter Karabıyık, Fatih Şatır,
Memduh Kırçan**İskenderun Demir Çelik Fabrikaları A.Ş.
Türkiye

01 October Saturday / 01 Ekim 2016

Hall Marmara / Salon Marmara

ISM'S

Session 3

Session Chairman / Oturum Başkanı: TAMER BİÇAKLI

13.30 - 14.10

Demir Çelik Sektöründe Meslek Hastalığı Riskinin Yönetilmesi ve Sektöre Özgü Etkin Sağlık Gözetimi Kurulması*Management of the Occupational Disease Risks in the Iron and Steel Industry and the Establishment of an Effective Sector Specific Health Surveillance***Ali Rıza Tiryaki**Artı OSGB
Türkiye
(Invited Lecturer)

14.10 - 14.30

Production of Ferromanganese, Zinc and Potassium Hydroxide From Spent Alkaline Batteries**Selçuk Yeşiltepe, M. Kelami Şesen**İstanbul Technical University
Türkiye

14.30 - 14.50

Effect of B_2O_3 and CaO/Al_2O_3 Ratio on Physical Properties of $CaO-Al_2O_3$ Based Mould Fluxes**Mustafa Seyrek¹, Richard Thackray¹, Priyanka Nadig²**¹The University of Sheffield, ²Allied Metallurgical Products Pvt. Ltd.
United Kingdom, India

ISM'S

Session 4

Session Chairman / Oturum Başkanı: C. FAHİR ARISOY

15.10 - 15.30

Determining the Interactions Between Raw Sinter Blend and Sinter Product**Selda Daldal¹, İsa Keskin¹, Ebru Tezcan¹, Cenk Kaya¹, S. Çevik²**¹Ereğli Iron and Steel Works Company,²İskenderun Iron and Steel Works Company
Türkiye

15.30 - 15.50

Increasing the Sinter Ratio at Isdemir's Blast Furnace#4**Sadi Balaban, Evren Şahin**İskenderun Demir Çelik Fabrikaları A.Ş.
Türkiye

15.50 - 16.10

Synthesis of Spongy Iron Powder from Maghemite in Pure Methane Atmosphere**Şenol Çetinkaya, Şerafettin Eroğlu**İstanbul University
Türkiye

16.10 - 16.30

A Study of Slab Quality and Tonnage Determination for Overlapping Heats in a Continuous Casting Tundish**Ayşe Oran^{1,2}, Müberra Gürel³, Bora Derin¹**¹Istanbul Technical University, ²Çolakoğlu Metalurji A.Ş., ³Safir Company
Türkiye

ISM'S

Session 5

Session Chairman / Oturum Başkanı: KELAMI ŞESEN

15.10 - 15.30

C66D Kalite Malzemelerde Mukavemet Değerlerinin Düşürülmesi ve Müşterideki Çekilebilirlik Hızının Arttırılması*Increase Tensile Strength and Decrease Drawability on Customer of C66D Quality***Serdar Günbay, Koray Aray, Erdi Gönülalan**İskenderun Demir Çelik Fabrikaları A.Ş.
Türkiye

15.30 - 15.50

Effect of Microstructure on Fracture Toughness of Coarse-Grain Heat Affected Zone in As-Welded X70M Steel**Mehmet Çağırıcı, Uygur Tosun, Murat Tolga Ertürk, C. Hakan Gür**Middle East Technical University
Türkiye

15.50 - 16.10

Determination of Factors Influencing Distortion of Carburized Quenching of Steel Shafts Using DoE with Computer Simulations**Hasan Yılmaz, Büşra Yazır, G. Elif Evcil, Seçil Yıldız, Caner Şimşir, Kemal Davut**Atılım University
Türkiye

16.10 - 16.30

ILTEC - A Revolutionary New and Safe Cooling Solution by Mettop**Martina B. Hanel, Andreas Filzwieser, Iris Filzwieser, Stefan Ruhs**Mettop GmbH
Austria

C'S

Session 1

Session Chairman / Oturum Başkanı: NECİP ÜNLÜ

10.00 - 10.20

Sodyum-Silikat Bağlayıcı Kum Sistemlerindeki Gelişmeler
Developments in Na-Silicate Bonded Sand Systems

HOW TO GET TO TÜYAP & ABOUT ISTANBUL
TÜYAP ALANINA ULAŞIM & İSTANBUL HAKKINDA

TÜYAP FAIR CONVENTION & CONGRESS CENTER, TRANSPORTATION & ACCOMMODATION

Fair Ground

TÜYAP FAIR CONVENTION & CONGRESS CENTER, TRANSPORTATION & ACCOMMODATION

Fair Ground

ANKIROS 2016 takes place at TUYAP Fair and Congress Centre, Buyukcekmece, Istanbul. TUYAP is Turkey's prominent and one of the most respectable fair venues.

TUYAP is located in Beylikduzu/Buyukcekmece and it is easily accessible by bus or car. It is only 15 km to Istanbul Ataturk International Airport, takes nearly 25 minutes to/from the Istanbul International Ataturk Airport and it is a 45-minute drive from Taksim Square, the city center.

TUYAP Fair, Convention & Congress Center accommodates services for exhibitors and visitors

- Toplam 10 salonda 42.000 m² sergileme kapasitesi,
- Uluslararası standartta teknik altyapı,
- Basınçlı hava sistemi, temiz ve atıksu sistemi, toplam 11.200 kW/h trafo gücü ve elektrik donanımı,
- 10.000 m² genel sosyal yaşam alanı, tam ofis donanımlı basın, özel protokol ve yönetim odaları,
- Tamamen iklimlendirilmiş ideal çalışma ve sergi ortamı,
- Toplantı, seminer, panel, vb. etkinlikler için ihtiyaca özel hazırlanmış toplam 8.000 m² de 11 adet 50 kişiden 750 kişiye kadar farklı boyutlarda toplantı salonu,
- Çokamaçlı kullanıma uygun 10 ayrı sergi salonu,
- 10.000'er kişilik toplantı, konferans veya konser salonuna dönüştürülebilecek 3 salon,
- 4000'er kişilik toplantı salonuna dönüştürülebilecek 2 ayrı salon,
- 2000'er kişilik toplantı salonuna dönüştürülebilecek 3 ayrı salon,
- 10.000 kişilik Türkiye'nin en büyük lokantasına dönüştürülebilecek salonlar,
- 7 ayrı kafeterya ve 1 a la carte lokanta,
- 4.500 araçlık katılımcı ve ziyaretçi açık otoparkı, TIR otoparkı,
- TOTAL benzin istasyonu - Günlük ihtiyaçlar için market,
- McDonalds fast food lokanta (arabaya servis),
- Taksidurağı

Getting to the Fairground

The fairground is approximately 25 minutes far from the Istanbul Atatürk Airport and 45 minutes from the city center (Taksim Square).

Address:

TUYAP Fuar ve Kongre Merkezi E-5 Karayolu , Gürpinar Kavşağı Beylikdüzü / Buyukçekmece 34522 İstanbul

By personal vehicles:

Via Boğaziçi Bridge (1st Bridge) / Via E-5 (Peripheral Highway)

- Enter E-5 from Boğaziçi Bridge or any other entrance;
- Follow the peripheral highway;
- Continue to Küçük Çekmece direction;
- Continue to Avcılar direction;
- After passing by 'Tatilya', enter the fairground at Beylikdüzü.

Via Fatih Sultan Mehmet Bridge (2nd Bridge) / Via TEM

- Enter TEM from Fatih Sultan Mehmet Bridge or any other entrance;
- Continue to Edirne direction;
- Take the Hadımköy / Büyücekmece exit;
- Enter the fairground at Beylikdüzü.

Via Bus or Metrobus:

There are İETT bus services from Taksim to the fairground. However, we advise not to take the bus but to take a taxi for our visitors coming outside of Istanbul.

There are free shuttle services available for our visitors who arrive at Avcılar using the Metrobus.

Via Airway:

Visitors arriving at Istanbul Atatürk Airport can take a taxi to go to the fairground.

Via Seabus:

There are free shuttle services available for our visitors who arrive at Bakırköy using the seabuses.

Free Shuttle Services

Bakırköy Seabus Port

Please refer to our official travel agent for any questions/problems about accommodation and transportation related to ANKIROS 2016.

The services offered by the official travel agent are:

- Airline tickets reservation and sales
- Car rentals
- Cocktail organisations
- Pre and post exhibition tours and partners program
- Hotel accommodation
- Transfers on arrival and departure
- Daily city tours

TÜYAP FUAR VE KONGRE MERKEZİ ULAŞIM VE KONAKLAMA

Fuar Alanı

TÜYAP FUAR VE KONGRE MERKEZİ ULAŞIM VE KONAKLAMA

Fuar Alanı

ANKIROS 2016 Fuarı, TÜYAP Fuar ve Kongre Merkezi, Büyükçekmece, İstanbul'da gerçekleştirilecektir.

TÜYAP Fuar ve Kongre Merkezi, ülkemizin en tecrübeli, tanınmış ve saygın fuar alanlarındanındır. Her yıl, çok sayıda uluslararası fuara ev sahipliği yapmaktadır. TÜYAP Fuar ve Kongre Merkezi'nin Atatürk Havaalanına uzaklığı ise 15 km'dir.

TÜYAP Fuar ve Kongre Merkezi katılımcı ve ziyaretçilere her türlü hizmeti sağlayacak şekilde tasarlanmıştır;

- Toplam 10 salonda 42.000 m² sergiye kapasitesi,
- Uluslararası standart teknik altyapı,
- Basınçlı hava sistemi, temiz ve atıksu sistemi, toplam 11.200 kW/h trafo gücü ve elektrik donanımı,
- 10.000 m² genel sosyal yaşam alanı, tam ofis donanımlı basın, özel protokol ve yönetim odaları,
- Tamamen iklimlendirilmiş ideal çalışma ve sergi ortamı,
- Toplantı, seminer, panel, vb. etkinlikler için ihtiyaca özel hazırlanmış toplam 8.000 m² de 11 adet 50 kişiden 750 kişiye kadar farklı boyutlarda toplantı salonu,
- Çokamaçlı kullanıma uygun 10 ayrı sergi salonu,
- 10.000'er kişilik toplantı, konferans veya konser salonuna dönüştürülebilecek 3 salon,
- 4000'er kişilik toplantı salonuna dönüştürülebilecek 2 ayrı salon,
- 2000'er kişilik toplantı salonuna dönüştürülebilecek 3 ayrı salon,
- 10.000 kişilik Türkiye'nin en büyük lokantasına dönüştürülebilecek salonlar,
- 7 ayrı kafeterya ve 1 a la carte lokanta,
- 4.500 araçlık katılımcı ve ziyaretçi açık otoparkı, TIR otoparkı,
- TOTAL benzin istasyonu - Günlük ihtiyaçlar için market,
- McDonald's fast food lokanta (arabaya servis),
- Taksidurağı

Ulaşım

IMMC 2014, TÜYAP Fuar ve Kongre Merkezi, Büyükçekmece, İstanbul'da düzenlenecek. Fuar alanı, İstanbul Atatürk Havaalanı'na 25 dakika ve şehir merkezine (Taksim Meydanı) 45 dakika mesafede bulunmaktadır.

Adres:

TÜYAP Fuar ve Kongre Merkezi, E-5 Karayolu, Gürpınar Kavşağı, Beylikdüzü / Büyükçekmece 34522 İstanbul

ANKIROS 2016 Fuarı'na ulaşım için gerekli bilgiler aşağıdadır.

Kişisel Araç ile:

- Boğaziçi Köprüsü (1. Köprü) / E-5 (ÇevreYolu) ile
- Boğaziçi Köprüsü üzerinden veya diğer bir girişten E-5'e (ÇevreYolu) giriş;
- ÇevreYolu'nu takip;
- Küçükçekmece yönüne devam;
- Avcılar yönüne devam;
- Tatlıya'yı geçtikten sonra Beylikdüzü'nde TÜYAP fuar alanına giriş.

Fatih Sultan Mehmet Köprüsü (2. Köprü) / TEM ile

- Fatih Sultan Mehmet Köprüsü üzerinden veya diğer bir girişten TEM'e giriş;
- Edirne yönünü takip;
- Hadımköy / Büyükçekmece çıkışından çıkış;
- Beylikdüzü'nde TÜYAP fuar alanına giriş.

Otogör ve Metrobüs ile:

Fuar Taksim'den İETT otobüs servisleri bulunmaktadır. Fakat İstanbul dışından gelen misafirlerimiz otobüsü tercih etmemelerini, bunun yerine taksiyi kullanmalarını öneririz. Metrobüs kullanarak herhangi bir duraktan Avcılar'a kadar gelen ziyaretçilerimiz için fuar alanına kadar tahsis edilen ücretsiz servislerimiz bulunmaktadır.

Havayolu ile:

Havayolu ile gelen ziyaretçiler Atatürk Havaalanı'ndan fuar alanına taksi ile ulaşabilirler. Deniz otobüsü ile: Deniz otobüsü ile Bakırköy'e gelen ziyaretçiler fuar alanına ulaşımında ücretsiz servislerimizden faydalabilirler.

Ücretsiz Servisler

Bakırköy Deniz Otobüsü İskelesi

- Araba kiralama
- Kokteyl organizasyonu
- Fuar öncesi ve sonrası turlar
- Otel konaklama
- Transfers on arrival and departure
- Günlük şehir turları

IMMC 2016

HELLO TO ISTANBUL İSTANBUL'A MERHABA

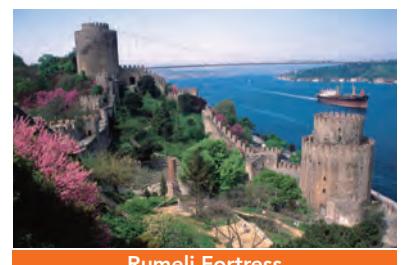

HELLO TO ISTANBUL

Located in the center of the Old World, Istanbul is one of the world's great cities famous for its historical monuments and magnificent scenic beauties. It is the only city in the world which spreads over two continents: it lies at a point where Asia and Europe are separated by a narrow strait - the Bosphorus. Istanbul has a history of over 8,000 years, and ever since its establishment on this strategic junction of lands and seas, the city has been a crucial trade center. The historic city of Istanbul is situated on a peninsula flanked on three sides by the Sea of Marmara, the Bosphorus and the Golden Horn. It has been the capital of three great empires, the Roman, Byzantine and Ottoman empires, and for more than 1,600 years over 120 emperors and sultans ruled the world from here. No other city in the world can claim such a distinction. During its development, the city was enlarged four times, each time the city walls being rebuilt further to the west.

Halic

Rumeli Fortress

Surrounded by 5th century Roman city walls and stretching over seven hills, Istanbul is adorned by the masterpieces of Turkish art, the great mosques of the Sultans that crown the hills. The city presents an exquisite, majestic and

serene silhouette from all directions. The Golden Horn, which is a very secure natural harbor, has played a significant role in the development of the city.

Fortune provided such advantages to Istanbul as a location at a junction where the main overland routes reach the sea, an easily defensible peninsula, an ideal climate, a rich and generous nature, control of the strategic Bosphorus, and a central geographical position in the ancient world.

As a capital of empires, the city was not only an administrative, but also a religious center. The Patriarchate of Eastern Christians has been headquartered here since its establishment, and the largest early churches and monasteries of the Christian world rose in this city on top of the pagan temples.

Between the 16th century when the Ottoman sultans acquired themselves the title of the "Caliph of Islam" and 1924, the first year of the Republic, Istanbul was also the headquarters of the Caliphate. More Jews settled in Istanbul than any other port, and here they built themselves a new and happy life after they were rescued from Spain by the Turks in the 15th century. Istanbul has always been a city of tolerance where mosques, churches and synagogues existed side by side. The city was adorned with a large number of dazzling and impressive works even during the period of decline of the Ottomans.

During this time, the influence of European art made itself felt in the new palaces, while the northern slopes of the Golden Horn, Galata and Beyoglu districts assumed a European character. Even when the Empire, which was a party to World War I, collapsed and the young Republic that replaced it moved the capital to Ankara, Istanbul did not lose its significance.

The haphazard development that began in the years following World War II and accelerated in the 1950's has unfortunately had a negative impact on the fabric of the old city, and while old wooden houses disappeared rapidly, concrete buildings proliferated. Istanbul experienced a population explosion due to immigration, and within a very short period it expanded far beyond the historical city walls.

With the initiatives for saving the city in the 1980s, Istanbul embarked on a process of restructuring on a scale unseen in its history. Thousands of buildings along the Golden Horn were demolished to make way for a green belt on its shores; parks and gardens were built on the land claimed by filling up the

beaches of the Sea of Marmara. In order to prevent sea pollution drainage systems were completed and physical and biological wastewater treatment plants were erected; the use of natural gas for heating has considerably reduced air pollution.

Efforts are continuing for the restoration of the Roman city walls, and Beyoglu, the main artery, was rescued by building a new avenue. Improvements were made in the general cleaning, maintenance, garbage collection fields and these services are now at Western European standards. Ring roads cross the Bosphorus over two suspension bridges to connect the two continents. The European side has now a fast tramway system and a subway, and comfort and speed has been ensured in sea transportation with the hydrofoil terminals built on the seashores. All industrial establishments on the historic peninsula have been moved to new facilities in the suburbs, and the new international bus terminal has reduced traffic intensity.

CLIMATE OF ISTANBUL

The inhabitants of Istanbul enjoy all four seasons. A short spring, ideal summer temperatures, a long autumn with blue skies, and a rainy winter... The Bosphorus dons the purple of the Judas-tree groves in the spring.

The parks and gardens are decorated with tulips and other flowers. March is a cool, rainy month, but April and May are exactly what one expects of the spring. June is half spring, half summer. An old saying advises one "not to bathe in the sea before you see the rind of a watermelon". It is possible to bathe in the seas of Istanbul until the end of September.

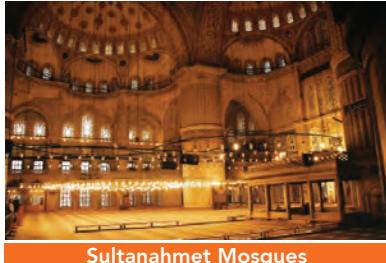

In July and August, except for perhaps two or three hot weeks, there are sometimes even cloudy or cool days. The weather can be unpredictable in a region with such a blending of lands and seas. Morning clouds may clear toward noon and invite the sun. There are few days of frost or snow. The main winds throughout the year are the cool and rainy "poyraz" from the south, and the warm "lodos" from the south. The last severe winter within the city boundaries was experienced in 1978 when the airport had to be closed partially for three days. For those who long for the snow, the winter sports center in Uludag, Bursa is not far away.

Alongside the efforts involving wastewater infrastructure, the seawaters are in the process of being cleaned and Istanbul is returning to its pre-pollution times of rich bathing opportunities. The beaches on the coast of the Black Sea, the Marmara, and the Princes' Islands are all less than one hour away from the center, and swimming is possible throughout the summer months.

Only experienced swimmers should attempt the currents of the cool Bosphorus. On windy days, the Black Sea is like the ocean. No other city in the world has beaches that are so safe and so close to the city, and seawaters with salt levels to suit every taste. Older inhabitants remember the days when they bathed in the Golden Horn; maybe it will be possible to do so again before the year 2004.

Maiden's Tower

Sultanahmet Mosques

Ortaköy Mosques

DON'T GO WITHOUT

- Seeing the Mosques of Süleymaniye and Sultan Ahmet (also known as the Blue Mosque);
- Visiting the Ayasofya and Chora Museums;
- Visiting the Topkapı and Dolmabahçe Palaces and the Rumeli Fortress;
- Taking the ferry up the Bosphorus and to the Princes' Islands;
- Watching the panorama of the city from the Galata Tower and the Pierre Loti;
- Enjoying the cultural and artistic activities;
- Wondering and joining the life of entertainment;
- Visiting the Ortaköy market;
- Riding the phaeton in Büyükada (island);
- Eating fish at a restaurant on the Bosphorus, at Kumkapi or Flower Passage; eating yoghurt at Kanlıca and profiterol at Beyoğlu;
- Buying a rug, jewelry, leatherwear at the Grand Bazaar, Turkish delight, baklava, pastrami and candy at the Spice Bazaar;
- Shopping at Beyoğlu and other mega sized shopping malls.

FOR A SHORT VISIT

Have you got only a short period of time to visit this beautiful city? No need to worry- there are choices of "tasting Istanbul" even in a short period of time.

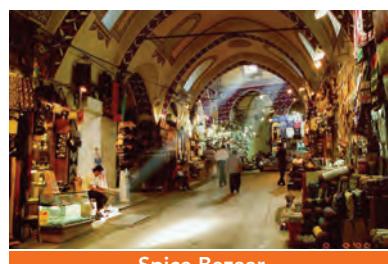

Daily excursions available throughout the year will give you the chance to visit the most important historical sites, museums, famous Grand Bazaar and surroundings. Excursions departing from hotels of the port present to you the monuments in the historical peninsula in half-day tours. You get a chance to visit Ayasofya Museum, the Mosque of Süleyman the Magnificent, the Mosque of Sultan Ahmet (also known as Blue Mosque), Hippodrome and Topkapı Palace Museum. You may also participate in tours taking you on the Bosphorus or to the Asian side. Then, you will go back home with unforgettable and beautiful memories.

The Roman fortifications, Chora (Kariye) Museum renowned for its late Byzantine period frescoes and mosaics, the Galata Tower for a splendid panorama of the city, Dolmabahçe Palace on the Bosphorus - the richest palace museum in the world, Archaeological Museums, Turkish-Islamic Arts Museum, the Spice Bazaar and others require 3 to 4 days' time.

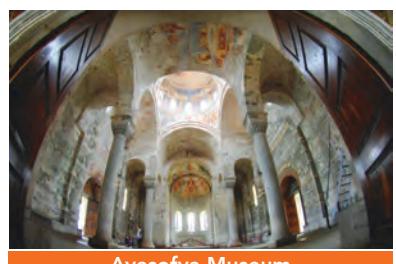

And cruising Bosphorus... A ferry ride on the Bosphorus will be amongst the most unforgettable. You may be carried away with the unparalleled beauty of the yalı mansions lining along the coasts and from which many ancient love stories reflect on the water, luxurious modern villas of the 20th century, the palaces of Dolmabahçe, Beylerbeyi and Göksu, Rumeli and Anadolu Fortresses, remnants of the fishing villages, restaurants, tea gardens, and night clubs. In the same day you can cool off in the waters of the Black Sea and then relax with a cup of coffee at a tea garden on the quiet coasts of the Sea of Marmara enjoying the beauty of the Istanbul Straits.

Istanbul is a place where the ancient meets the modern. For shopping there is a great variety of choices. The Grand Bazaar and the big reputable shops by it, the shopping malls of Ak Merkez, Galleria, Capitol and many more, the boutiques at Nişantaşı and Beyoğlu and in the Baghdad Street are at your service all through the year.

The Grand Bazaar still retains the dreamlike atmosphere of the "good old days," yet, it presents you with the newest choices of the modern world: eye-catching jewelry, copperwork, rugs, leatherwear, suede wear, and many more... Once caught by it, you may lose track of time strolling in the Grand Bazaar.

Spice Bazaar

Ayasofya Museum

Our greetings and love from the beautiful Istanbul, home of many civilizations.

TRANSPORTATION

Intercity Travel

As the only sea route between the oil-rich Black Sea and the Mediterranean, the Bosphorus is one of the busiest waterways in the world; more than 200 million tonnes of oil pass through the strait each year, and the traffic on the Bosphorus is three times that on the Suez Canal. The city's main cargo port, the Port of Haydarpaşa, is Turkey's third-largest, with an annual cargo capacity of 5.9 million tonnes.

International rail service from Istanbul launched in 1889, with a line between Bucharest and Istanbul's Sirkeci Terminal, which ultimately became famous as the eastern terminus of the Orient Express between Paris and Istanbul. After Istanbul's Haydarpaşa Terminal opened in 1908, it served as the western terminus of the Baghdad Railway and an extension of the Hejaz Railway; today, neither service is offered directly from Istanbul. Service to Ankara and other points across Turkey is normally offered by Turkish State Railways, but construction of Marmaray and the Istanbul-Ankara high-speed line forced the station to close in February 2012.

Private bus companies operate routes along, but also well beyond, those offered by the rail network. Istanbul's main bus station is the largest in Europe, with a capacity of 15,000 buses and 600,000 passengers each day. Direct bus service is available to as far as Frankfurt, 1,870 kilometers (1,160 mi) away.

Istanbul has two international airports, the larger of which is Atatürk International Airport. Atatürk International, located 24 kilometers (15 mi) west of the city center, handled 37.4 million passengers in 2011. Sabiha Gökçen International Airport opened on the Asian side of the city, 45 kilometres (28 mi) east of the European city center, to relieve Atatürk International. Sabiha Gökçen is dominated by low-cost carriers, with destinations in Europe, the Middle East and North Africa. And was named the world's fastest growing airport by Airports Council International in 2011.

Local Travel

Istanbul's local transportation system is a complex network of trams, funiculars, light-rail lines, metro lines, buses, bus rapid transit, and even ferries.

Operated by Istanbul Electricity, Tramway, and Tunnel (IETT), trams slowly returned to the city beginning in 1990, with the reopening of the route along İstiklal Avenue. Today, Istanbul's modern tram line, which goes between Kabataş and Bağcılar, has a daily ridership of 265,000 people.

The Tünel (F2) opened in 1875 as the world's second-oldest subterranean rail line (after London's Metropolitan Railway); it still carries passengers between Karaköy and Beyoğlu along a steep 573-meter (1,880 ft) track. The two sides of Istanbul's metro will ultimately be connected under the Bosphorus when the Marmaray tunnel, the first rail connection of any kind between Thrace and Anatolia, is completed in 2015.

Until then, ferries compose the primary mode of public transportation between the European and Asian halves of the city. İDO (Istanbul Seabuses) runs a combination of all-passenger ferries and car-and-passenger ferries to ports on both sides of the Bosphorus, as far north as the Black Sea.

İSTANBUL'A MERHABA

Eski Dünyanın merkezinde yer alan İstanbul tarihi abideleri ve şahane tabii manzaraları ile ünlü, önemli bir megapoldür. Asya ile Avrupa Kıtları'nın dar bir deniz geçidi "Boğaziçi" ile ayrıldığı yerde, iki kıta üzerinde kurulu tek şehirdir. 8000 yılı aşan bir tarihe sahip olan İstanbul, deniz ve karaların kucaklaştığı bu stratejik bölgede kuruluşunu takiben önemli bir ticaret merkezi olmuştu. Tarihi İstanbul şehri üç tarafını Marmara Denizi, Boğaziçi ve Haliç'in sardığı bir yarımadada üzerinde yer alır. Burası 3 dünya imparatorluğuna, Roma, Bizans ve Osmanlı Türkleri'ne başkent olmuş, 1600 yılı aşan bir süre boyunca 120 den fazla imparator ve sultan burada hüküm sürmüştür. Dünyada bu özelliğe sahip tek şehirdir. Gelişim sürecinde surlar her defasında daha batıya inşa edilerek şehir 4 defa genişletilmiştir.

Haliç

Rumeli Hisarı

5.yy Roma devri surları ile çevrili, 7 tepe üzerine kurulu İstanbul, Türk sanatının şaheser eserleri, buralara kondurulmuş "taçlar" gibi, Sultan camileri ile süslüdür. Şehrin silueti her yönden güzel, muhteşem ve huzur

verici bir manzadır. Çok emin bir tabii liman olan Haliç şehrın gelişmesinde önemli rol oynamıştır. Ana yolların denize ulaştığı kavşak noktasında yer olması, kolay savunulur bir yarımadada, ideal iklim, zengin ve cömert tabiat, stratejik Boğaziçi'nin kontrolü gibi özellikler ve coğrafi konumunun dünyanın merkezinde bulunması İstanbul'un kismetidir.

İmparatorluklar başkenti olduğu sıralarda, devlet ile birlikte dinlere de idari merkez olmuş, Doğu Hıristiyanlığı Patrikliği kurulduğu zamanlardan günümüze kadar bu şehirde üslenmiş, Hıristiyan dünyasının en büyük ilk kilise ve manastırı buradaki pagan mabetlerinin üzerinde yükselmiştir.

Osmanlı Sultanlarının İslam Dini'nin halifeleri olduğu 16.yy dan Cumhuriyetin ilk yılı 1924 e kadar bu sembolünde merkezi İstanbul'dur. Yahudilik her liman şehrinde olduğundan daha fazla İstanbul'da yerleşmiş, 15.yy da Türk'lerin İspanya'dan kurtarıp getirdikleri de mutlu, yeni hayat tarzına bu şehirde başlamışlardır.

İstanbul, cami, kilise ve sinagogların yan yana mevcudiyetlerini sürdürdüğü bir toleranslar merkezi olagelmiştir. Osmanlı İmparatorluğu çöküş yıllarında şehir, zengin, gösterişli bir çok eser ile süslenenmiş, saraylar Avrupa sanatının tesirinde yapılmış, Haliç'in kuzey yamaçları Galata ve Beyoğlu semtleri Avrupai kimliklerine bürünmüştür.

1980'li yıllarda başlayan kurtarma hamleleri ile İstanbul tarihinde görümediği bir yeniden yapılanma sürecine girer. Haliç kıyılarında binlerce yapı istismak edilerek kıyı boyu yeşil kuşakla çevrilenmiş, Marmara Denizi kıyıları doldurularak park ve bahçelerle donatılmıştır. Drenaj sistemleri tamamlanarak, atık sular fiziki ve biyolojik arıtlımsız, şehri çevreleyen denizlerin kirlenmesi önlenmiş, hava kirliliği, artık doğal gaz kullanıldığı için oldukça azalmıştır.

Roma şehir surları restorasyonları başlatılmış, can damarı Beyoğlu yeni açılan bir cadde ile kurtarılmış, daha önceki yıllara nazaran genel temizlik, bakım, çöp işleri Avrupa standartlarını yakalamıştır. Çevre yolları Boğaziçi'ni 2 asma köprü ile geçerek kitaları bağlarken, Avrupa yakası hızlı tramvay ve nihayet metro sisteme kavuşmuş, kıyılarda inşa edilen deniz otobüsleri terminali ile deniz taşımacılığında sürat ve konfor sağlanmıştır.

Tarihi yarımadadaki bütün sınai tesisler şehir dışında yapılan modern sitelere taşınırken, yeni şehirler ve uluslararası otobüs terminali de trafik yoğunluğunu rahatlatmıştır.

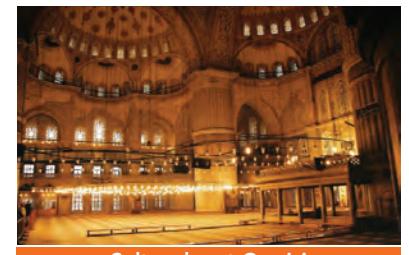

İSTANBUL'UN İKLİMİ

4 Mevsimi de yaşar İstanbul. Kısa İlkbahar, ideal Yaz sıcaklığı, uzun, mavı göklü Sonbahar ve ıslak Kış. Boğaziçi Erguvan korularının pembesine bürüldür İlkbaharlarda. Park ve bahçeler lale ve çiçeklerle bezelidir. Mart serin, yağışlı; Nisan ve Mayıs tam bahar...

Haziran yarı bahar yarı yaz gibidir. Bir deyim "karpuz kabuğunu görmeden denize girme" der. Eylül sonlarına kadar İstanbul'un denizleri yüzmeye elverişlidir. Temmuz ve Ağustos aylarının belki 2-3 haftası sıcaklık artabilir, bu süre dışı, bazen bir kaç gün bulutlu ve serin bile olabilir. Deniz ve karalar böylesi harmanlanmış bir bölgenin havasına tam güven olamaz. Sonbahar en uzun mevsimdir. Aralık ayından Marta kadar. Karlı veya dondurucu kış günleri sayılır. Serin, kuzey "poyraz" rüzgarı ile yağışlı, ılık güney "lodos" u yıl boyu hakim rüzgarlardır. Şehir sınırlarında şiddetli son kış 1978 yılında yaşanmış, hava limanı 3 gün kısmen kapanmıştır. Karlı günlerin özlemini çekenler için Bursa Uludağ her türlü kış sporları için yakındadır.

Kız Kulesi

Sultanahmet Camisi

YAPMADAN DÖNME ...

- İstanbul'un dini mimari şaheserlerinden Süleymaniye Camiini ve Sultanahmet Camiini görmeden,
- Ayasofya ve Kariye Müzesi'ni ziyaret etmeden,
- Topkapı Sarayı, Dolmabahçe Sarayı ve Rumeli Hisarını gezmeden,
- Boğaz'da ve adalarda vapur gezisi yapmadan,
- Galata Kulesinden ve Pierre Loti'de İstanbul manzarası seyretmeden,
- Sanat ve kültür etkinliklerini izlemeden,
- Eğlence hayatını merak edip, görmeden,
- Ortaköy pazarına uğramadan,
- Büyükkadada fayton turu yapmadan,
- Boğazda, Kumkapıda, ÇiçekPasajında balık, Kanlıcada yoğurt, Beyoğlu'nda profiterol yemeden,
- Kapalıçarşı'da halı, mücevherat, deri giyim eşyaları, Mısır Çarşısında lokum, baklava, pastırma, şekerleme almadan
- Beyoğlu'nda ve tüm mega alışveriş merkezlerinde alışveriş yapmadan dönmemin.

KISA SÜRECEK BİR İSTANBUL ZİYARETİİNDE ...

Bu güzel şehri ziyaret için çok kısa bir süreniz mi var? Endişelenmeyin bu kısa sürede dahi "İstanbul'u yaşamak" için alternatifleriniz mevcut.

Sürekli düzenlenen günlük turlarla, önemli tarihi yerleri, müzeleri, meşhur Kapalı Çarşı ve civarını gezebilirsiniz. Oteller veya limandan hareket eden turlar tarihi İstanbul yarımadasında bulunan şaheserleri yarımsız günlük programlar ile size tanıtırlar. En azından Ayasofya Müzesi, Süleymaniye Camii, Sultan Ahmet Camii, Hipodrom ve Topkapı Sarayı Müzesi gibi şaheserleri gezme şansınız olur. Pek çok Roma, Bizans ve Türk eserlerini tanyabileceğiniz Boğaziçi ve Asya yakası turlarına da katılmanız mümkündür. Bu turlar sonrasında unutamayacağınız güzellikler ve anıtlar ülkenize dönersiniz.

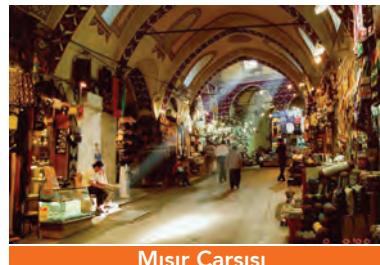

Ortaköy Camisi

Roma devri şehir surları, son Bizans devri fresk ve mozaikleri ile süslü, ünlü Kariye Müzesi, şehrin en güzel manzarasının görülebileceği Galata Kulesi, Boğaziçi kıyısındaki dünyanın en zengin sarayı Dolmabahçe, ünlü Arkeoloji Müzeleri, Türk İslam Sanatları müzesi, Mısır Çarşısı ve diğer bir çok tarihi eseri 3-4 günlük bir ziyaretle gezip tanıyalırsınız.

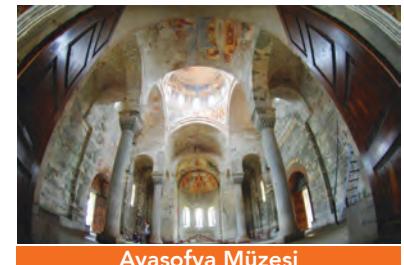

Ve Boğaz turları... Boğaz'da bir vapur gezisi, unutulmaz anılarınız arasına girecektir. Boğaz'ın iki yakasında sıralanan her birinden ayrı bir sevda masalının sulara yansığı asude ve emsalsiz yalılar, 20. yüzyılda yapılan lüks villalar, Dolmabahçe, Göksu ve Beylerbeyi Sarayı, Rumeli ve Anadolu Hisarları, balıkçı köylerinden kalma izler, lokantalar, çay bahçeleri, parklar, gece kulüpleri siz büyüleyebilir. Aynı günde Karadeniz'in vahşi sahillerde denize girip ardından Marmara'nın sakin kıyılarda bir çay bahçesinde bir fincan kahvenizi yudumlar ve İstanbul Boğazının güzelliğini doya doya seyredersiniz.

İstanbul tarihsel yapılarının yenilerileyle buluştuğu bir şehirdir. İstanbul'da alış veriş imkanları zengin ve çeşitlidir. Kapalı Çarşı ve girişteki büyük meşhur mağazalar, Ak Merkez, Galeria, Capitol ve benzeri merkezler, Beyoğlu, Nişantaşı butikleri, Bağdat caddesinin mağazaları yil boyu hizmet verirler.

Kapalıçarşı labirentvari yapısıyla geçmişin hülyali günlerinin izlerini taşımakta ısrar ederken bir yandan da modern dünyanın yepyeni ürünlerini serer önüne; büyülü mücevherler, bakır eşyalar, halılar, çeşit çeşit deri ve süet giyim... Cazibesine kapılınca en ufak bir yorgunluk duymadan saatlerce dolasabilirsiniz bu çarşida.

Mısır Çarşısı

Ayasofya Müzesi

Pek çok medeniyete ev sahipliği yapan güzel İstanbul'dan size sevgiler gönderiyoruz.

ULAŞIM

Kent Dışı Ulaşım

Karayolu ile ulaşımda kullanılan Büyük İstanbul Otogarı, 1980'li yıllarda Topkapı'da bulunan İstanbul Trakya Otogarı'nın yetersiz gelmesi üzerine, 1987'de yapımına başlanılmış, 1994 yılında hizmete girmiştir.

Kente demiryolu ile ulaşım için kullanılan Haydarpaşa Gari, 1908'de İstanbul - Bağdat Demiryolu hattının başlangıç istasyonu olarak inşa edilmiştir. Gar, TCDD'nin ana istasyonudur. İstanbul'un Anadolu Yakası'nda Kadıköy'de bulunur. Osmanlı İmparatorluğunun son dönemlerinde bu istasyondan Bağdat Demiryolu yanında Hicaz Demiryolu seferleri de yapılmaya başlanmıştır. Şehrin Avrupa yakasında Eminönü'nde bulunan Sirkeci Garı Trakya ve Avrupa'ya demiryolu ulaşımının başlangıcıdır.

Kente havayolu ile ulaşım için Atatürk Havalimanı ile Sabiha Gökçen Havalimanları mevcuttur. 3. Havalimanının da yapılması gündemdedir.

Kentin Türkiye'deki önemli merkezlere uzaklıği şöyledir: Kayseri 770 Adana 939, Hatay 1171, Ankara 454, Antalya 724, Bursa 243, Edirne 227, Diyarbakır 1372, Gaziantep 1136, İzmir 565, Konya 663, Kayseri 770, Samsun 733, Trabzon 1067 km.

Kent İçi Ulaşım

İlide kent içi ulaşımda kullanılmak üzere İETT ve Ulaşım AŞ tarafından işletilen metro, tramvay, metrobüs otobüslerin yanında dolmuş ve İDO tarafından işletilen deniz otobüsleri ve feribotlar da kullanılmaktadır. Kentte 13 adet raylı sistem hattı vardır ve bu hatların uzatılması ve yenilerinin yapılması projeleri vardır. Kentte ayrıca 1510 m uzunluğundaki Fatih Sultan Mehmet ve 1071 m uzunluğundaki Boğaziçi Köprüsü ile Avrupa Yakası ile Asya Yakası arasındaki ulaşım sağlanır. 3. Köprünün ihalesi yapılmıştır.

Congress**

ABSTRACTS / ÖZETLER

A Study on Spinel Formation and Sintering Behavior of Al₂O₃-MgO System for Induction Furnace Linings

Ozan Uylas^{1,2}, Muharrem Timuçin³, Ender Suvacı¹, Muammer Bilgiç⁵, Beyhan Özdemir⁴, Oktay Uysal², Uğur Cengiz⁵, Özkan Kurukavak⁴, Hasan Erdoğan⁴, Yakup Yalçınkaya⁴

¹Anadolu University, ²Entekno Endüstriyel Ltd. Şti., ³Middle East Technical University, ⁴Kütahya Manyezit Sanayi A.Ş., ⁵Bilecik Demir Çelik A.Ş. - Türkiye

Alumina (Al₂O₃) is the most fashionable material for producing neutral linings of induction furnaces used in steel industry. This type of lining has very high melting temperature, high strength, high hardness, and relatively high resistance to slag attack. In induction furnace applications chemical durability, thermal shock resistance, and mechanical strength of Al₂O₃ based neutral linings can be improved by direct addition of pre-reacted spinel (MgAl₂O₄), or by adding fine MgO to form an in situ spinel phase. When using in situ spinel forming alumina based neutral linings factors such as control of spinel formation kinetics, distribution of the spinel phase in the microstructure, and sintering kinetics in the Al₂O₃-MgO system are critical issues. Accordingly, the objective of this research was to study the spinel MgAl₂O₄ formation behavior and the sintering of alumina based Al₂O₃-MgO type induction furnace ramming materials in terms of the controllable variables like particle size distribution in the ramming mix, sintering temperature, and sintering time.

Investigation of the Influences of SnO₂ Incorporation on the Mechanical and Thermal Shock Behaviours of MgO-Spinel Composite Refractories

Cemail Aksel, Pınar Uğur

Anadolu University - Türkiye

Mechanical properties and thermal shock behaviour of MgO-spinel composite refractories incorporated with SnO₂ were examined. The relationships between mechanical/thermal shock behaviours and microstructural variations for different compositions were investigated. Mechanical properties of composite refractory materials were measured and evaluated. The addition of varied amounts of SnO₂ to MgO-spinel improved mechanical properties, R_{st} values and thermal shock data significantly. The fundamental parameters improving the mechanical properties and thermal shock resistance of MgO-Spinel-SnO₂ refractories were in general determined as follows: i) when the microcracks formed in the structure reached to Mg₂SnO₄ particles or pores; crack branching and deviation of interlinked microcracks or crack arresting occurred more effectively than that of spinel particles, ii) the trend of fracture type was converted to intergranular fracture with the addition of spinel and transgranular fracture with the incorporation of SnO₂; furthermore with the incorporation of SnO₂, iii) critical defect size, iv) work of fracture and v) density values increased, and vi) grain size of MgO decreased. Those improvements observed in thermo-mechanical properties confirmed that MgO-Spinel-SnO₂ composite refractories used at high temperatures showed a low strength loss with a high thermal shock damage resistance, accordingly leading to a long service life for those refractories in industrial uses.

Seramik Sağlık Gereçlerinde Tane Boyut Dağılımının Yüzey Özelliklerine Etkisi

Selin Baklacı¹, Pervin Gençoğlu¹, Alpagut Kara²

Seramik Araştırma Merkezi, ²Anadolu Üniversitesi - Türkiye

Sır, seramik bünyeyi ince bir tabaka şeklinde kaplayarak, bünyenin üzerinde eriyen camsı bir oluşumdur. Kimyasal bileşimi açısından pişirme koşullarına ve bünyenin ışıya bağlı davranışlarına uyum sağlamak ve kullanım esnasındaki koşullarda dayanıklı olmak zorundadır. Seramik sağlık gereçlerinde (SSG), ürün boyutlarının büyük ve karmaşık olması nedeniyle sır yüzeyi kişilerle doğrudan temas halindedir. Kullanılan sırin beyaz ve opak olması kusurları rahatça göstermektedir, dolayısıyla düzgün bir sır yüzeyi elde etmek oldukça zordur. Bu çalışmada, sır çamurunun tane boyut dağılımı değişiminin sır yüzeyine etkisi incelenmiştir. Çalışmalar farklı kompozisyon'a sahip olan iki reçete ile gerçekleştirilmiştir. Bu kapsamda, ham numunelerin tane boyut dağılımı ve ısı mikroskopu analizi, pişmiş numunelerin karakterizasyonu için XRD, SEM, spektrofotometre, parlaklık, yüzey pürüzlülük ölçümleri yapılmıştır. Çalışmalar sonucunda, sır süspansyonunun tane boyut değişimi ile yüzey özelliklerinin değiştiği görülmüştür.

Usage of Boron Wastes in the Commerically Produced and Used ZrCMS System Opaque Frit Composition

Fatma Aksu¹, Ayşe Tunalı¹, Neslihan Tamsü Sellî¹, Buğra Çiçek², Emre Taşlık¹

¹Eczacıbaşı Building Product Co., ²Yıldız Technical University - Türkiye

Over the past two decades there was growing interest in the development of frits that are able to crystallise on firing because of the need for improvement in the mechanical and chemical properties of glazed tiles. The ZrO₂-CaO-MgO-SiO₂ (ZrCMS) glass-ceramic system is one of these and exhibits high resistance to abrasion and surface scratches. In this present study, boron wastes of Eti Mine Boron Company, which appear at huge amounts during processess, were characterized and added into the commercially produced and used ZrCMS system opaque frit composition. New compositions were applied on tile bodies, and then fast fired under industrial working conditions. Newly-produced glazes were characterized in terms of optical, mineralogical and microstructural properties.uses.
