

Dear Sips Staff,

This invitation is being sent on behalf of the **General Industrial Directors** David Carey, Hasan Giray, Sergey Kolyvanov and Johan Svensson, the Co-Chairs of the **Flink International Symposium on Sustainable Production of Ferro-alloys**, which is dedicated to honoring the lifetime achievements of **Ing. Bo Flink**, a renowned figure in the field of Sustainable Production of Ferro-alloys and beyond. This symposium will be held as part of 2019 Sustainable Industrial Processing Summit (SIPS 2019), a yearly event that is deeply science-focused and industrial engineering-oriented, organized by the not-for-profit corporation FLOGEN Stars Outreach, which is dedicated to achieving sustainability through science and technology. It incorporates summit plenary lectures from well-known speakers that address the link between scientific and engineering domains in the pursuit of sustainable development, as well as specific science and engineering symposia that feature technical presentations with the same goals in mind. The symposium and overall summit is planned to be held in Cyprus from 23-27 October 2019.

We have confirmed until now the participations of **6 Nobel Laureates**: Dan Shechtman, Kurt Wuthrich, Ferid Murad, Rudy A. Marcus, Yuan T. Lee and Klaus Von Klitzing.

The information about the symposium, its Web site, SIPS 2019 Web site and all relevant information are given in the web version of the official invitation here:
https://www.flogen.org/sips2019/pdf/Flink_General_Author_Invitation.pdf

As President of SIPS 2018, I am personally inviting you to participate as an author at this major symposium. The topics of the symposium are given in the link above, if you prefer to deliver a presentation with a wider scope for one of the listed topics, or on a new specialized topic of your choice, we would be pleased to take it into consideration for a possible nomination as an Invited or Keynote Lecture. In this case, please send us an email at the same address, which should indicate your interest and include a draft abstract.

The papers will be double peer reviewed and published in the official Publication entitled: "**Flink International Symposium on Sustainable Production of Ferro-alloys**" containing ISBN and ISSN numbers. Furthermore, many papers will be subsequently published as part of special volume of relevant Journal dedicated to this symposium.

This symposium follows a rich tradition of similar symposia held as part of SIPS since 2003. An overview of the most recent events in Rio De Janeiro, Brazil; Cancun, Mexico, Hainan, China; Antalya, Turkey; San Diego, USA, can be seen in the above-mentioned link.

The symposium is the optimal conference to present your most recent work, listen to latest achievements of your colleagues, and interact with well-known experts from diverse fields of industry, academia, and politics. We hope your participation will enable your organization to improve efficacy, and implement the best sustainable research and industrial practices.

It would be a great pleasure to have you join us.

We are looking forward to hearing from you.

Dr. Florian Kongoli
President
SIPS 2019 Organizing Committee
