

PUBLICATIONS
Georges John Kipouros

Patents

G.J. Kipouros, “Sub-coating coated metal corrosion measurement”, U.S. Patent 8,926,823, January 6, 2015. A patent on the corrosion detection under insulation (CUI) of pipelines and painted surfaces.

Books

1. "Direct Reduction of Iron Oxide from the Residue of FeS₂ Roasting", Dipl. Eng. Thesis, Mining and Metallurgical Engineering, National Technical University of Athens, Athens, Greece (1971).
2. "Separation of Hafnium from Zirconium by Reaction of Mixed Tetrachloride Vapours with Solid Potassium Chloride", M.A.Sc., Metallurgy and Materials Science, University of Toronto, Toronto, Ontario, Canada (1977).
3. "Electrorefining of Zirconium Metal in Alkali Chloride and Alkali Fluoride Electrolytes and Thermodynamic Properties of Some Alkali Metal Hexachlorozirconate and Hexachlorohafnate Compounds", Ph.D., Metallurgy and Materials Science, University of Toronto, Toronto, Ontario, Canada (1982).
4. B. [Mishra](#), and [G.J. Kipouros](#) (Editors), “Titanium: Extraction and Processing”, TMS, Warrendale, Pennsylvania, U.S.A (1997).

***GENERAL MOTORS PUBLICATIONS**

Author or co-author in fourteen (14) research reports or memoranda prepared for General Motors Corporation the quality of which is equivalent to publications in a refereed journal. These reports are on the subject of the development of processes to produce rare earth metals or alloys which are strategic to the manufacturing of (Rare Earth)-Fe-B permanent magnets and on the development of electrolytic processes for the production of magnesium metal. Due to proprietary confidential information contained in these reports the titles of the reports **cannot** be announced outside the General Motors Corporation (Letters supporting this statement are

available). Similar restrictions exist for many other documents of companies that I acted as consultant.
