Autobiography

Sergio Leite de Andrade is an advisor and Vice-President of Strategic Affairs at Usiminas.

He was Chairman of the Board of Directors of Usiminas in 2022/2023, having served as Chairman and CEO of the Company from 2016 to 2022 and Chairman of the Board of Directors of “Mineração Usiminas” MUSA from 2016 to 2022.

With over 50 years work experience in the company, including 3 summer internships as an engineering student, he has held 15 successive executive positions and has been a member of the Company's Statutory Board since 2008.

He graduated in Metallurgical Engineering from the Federal University of Rio de Janeiro (UFRJ) in 1976 and holds a Master's Degree in Metallurgical Engineering from the Federal University of Minas Gerais (UFMG) in 1979. He is a certified Quality Engineer (CQE) and Quality Auditor (CQA) from the American Society for Quality (ASQ) and the Brazilian Association for Quality Control (ABCQ), and has participated in numerous short courses, including as a lecturer.

He has been Vice President of the Board of Directors of the Brazilian Steel Institute since 2022, having already served as Chairman of the Board (2018 to 2020) and also as Vice Chairman of the Board (2016 to 2018).

He has been Chairman of the Board of Directors of the Brazilian Association of Metallurgy and Materials (ABM) since 2021, of which he was also Vice President (2019 to 2021) and Director for two terms (1993/1995 and 1998/1999), having been awarded a prize for published technical papers in the 1980s.

Since 2017, he has been a member of the Strategic Council at Federation of Industries of Minas Gerais - FIEMG.

With more than 60 technical papers published in congresses in Brazil and abroad as well as teaching experience in universities throughout the country, he was also a member of the Technology Committee of the International Iron and Steel Institute (IISI), from 1994 to 2000, and a member of ULSAB / World Steel Association (Ultra-Light Steel Auto Body) Project from 1997 to 2008, besides being Vice President of Minas Gerais Society of Engineers, from 1999 to 2005.

During the 1990s, he was also a member of the Board of Directors of the University of Eastern Minas Gerais (Unileste) and of the Board of Trustees of São Francisco Xavier Foundation (FSFX).

He currently serves as an advisor to the FSFX Board of Trustees.

Since the 1980s, he has given more than 200 lectures at various events, on topics related to metallurgy, quality, leadership, ethics, research and development, administration, marketing, international trade, steelmaking and management.

He has been honored by several entities in Brazil for his career and for his work as CEO of USIMINAS since 2016, leading the company's revitalization process.
