- Science, Technology & Industry
- Governance & Management
- Education & Civil Society

9th International Symposium on Sustainable Biochar

The Symposium is being held under the umbrella of SIPS 2024 covering the following topics:

- Biochar and related technologies for emission-reduction and energy-saving
- Nanotechnologies in biochar cement and concrete production
- Waste re-use, encapsulation and processing
- Chemistry, production and utilization of biochar, cement, and concrete
- Low-energy manufacture and chemistry of biochar, cement, and concrete
- Testing technology, standardization and efficient utilization
