

Biography of Cristovam Paes de Oliveira

Professor Cristovam Paes de Oliveira has been president of the Gorceix Foundation since October 2001. In 2015, he became Executive President, in accordance with changes statutory. He also serves as President of the FG Board of Directors.

He was born in Hermílio Alves, district of Carandaí, Minas Gerais, on 02/27/1946.

In 1977 he received his doctorate in Physical Sciences from the University of Paris XI (Paris-South), France, where he defended the thesis on the topic: "Analysis by autoradiography of tritium and by electron microscopy of the role of metalloid impurities on hydrogen trapping and cracking in hydrogenated Fe-Cr and Fe-Ni-Cr alloys" guided by prof. Paul Lacombe.

He has held the following positions:

From 1980 to 1988 - Director of the Escola de Minas de Ouro Preto.

From 1988 to 1992 - Rector of the Federal University of Ouro Preto.

From 1996 to 2001 - Coordinator of the Master's and Doctorate Program in Engineering

Materials from REDEMAT - Thematic Network in Materials Engineering. He is currently President of the FG Board of Directors and visiting professor at REDEMAT (specialization, master's degree and doctorate), where he teaches "Thermal Treatments of Metals", "Research Projects" and also supervises and/or co-supervises dissertations and theses.
